Thread of #HinduGenocide

I request all nationalists to listen to a video on "The Biggest Genocide in Human history " by Dr. Melissa Kapoor.

It's none other than Hindu Holocaust.

"Even after several attacks, Hindus have survived and that's a cause for celebration. It still means that some of our texts are still alive and floating. But all this has come with a great cost."

We must realise this.

#HindusLivesMatter

"The current research clearly shows the torture, rapes, conversions which Hindus had to face since 11th century.

TENS OF MILLIONS OF HINDUS WERE KILLED BY THE EUROPEANS, be it Portuguese or British."

"Genocide simply doesn't men killing.

The Europeans conducted a cultural genocide on Hindus by destroying temples, by eradicating the Kshatriya martial arts, by replacing real history with anti-hindu history, deliberately misinterpreting Vedas."

*mean killing
