Never wear a mask. Just print up the health order for the area in which your person is resides. Its easy;

When they say 'you have to wear a mask'

Say "no sorry im unable to, i have an exemption"
Pull out the order and show them the circled section.

I havent once worn a mask

@canadiangirls99 The card never really works but the paperwork does everytime. You might have to speak to a manager, and may have to ask them to bring their indemnity insurance documents.

Put your phone in your pocket and record the interaction.

Stand strong. Dont back down.
