Want to make $100k/m?

If you charge $3k/m you need ~33 clients

that's ~3 clients per month

so instead, I'll show you how we've acquired 10-20 clients per month every month for the last year

(bookmark + steal this)

1. Cold Email

Buy a TON of domains and warm them up inside https://t.co/08hCRQzfls

Work your way up to the point where you're sending 10,000-15,000 cold emails per month to your ideal client profile

Keep the script simple:

Subject: Quick Question

Hey {first name}

AI first line OR big fat case study

[conversation starting question]

"is this something that could benefit [company name]?" for example

2. Andrew Tate Linkedin Strategy

I made a whole thread over this that I'll attach below for you to read

> You can take the same strategies he used but for a B2B business

3. SEO

Google "hire commission only sales reps" and let me know who's the #1 spot on the first page

(hint: It's Closify)

This brings in over 1,000 intent based visitors to our site monthly

4. Strategic Partners

Find someone that offers a different service than you but to the same prospect

form a partnership and cross sell to each others customer bases & prospects

5. Content Marketing

Post valuable content on Linkedin, Twitter, Youtube, Tik Tok, etc

Build an in house editing and repurposing team (in the process of doing this)

6. Referal Programs

Let everyone know about your referral programs

ours is https://t.co/PQ3fedEloK and you can earn 50% recurring commissions for sending us closers or business owners

Those are the main 6 client acquisition channels we're currently using

These have consistnely brought us 10-20 high ticket clients per month for the last year

if you copy it, it will do the same for you

if this https://t.co/Mfhm5ORVjM helped you bookmark it & send it to your team to begin implementing

shoot me a follow too @alexh459 to help me get to 10k followers & I will put out more threads like this
