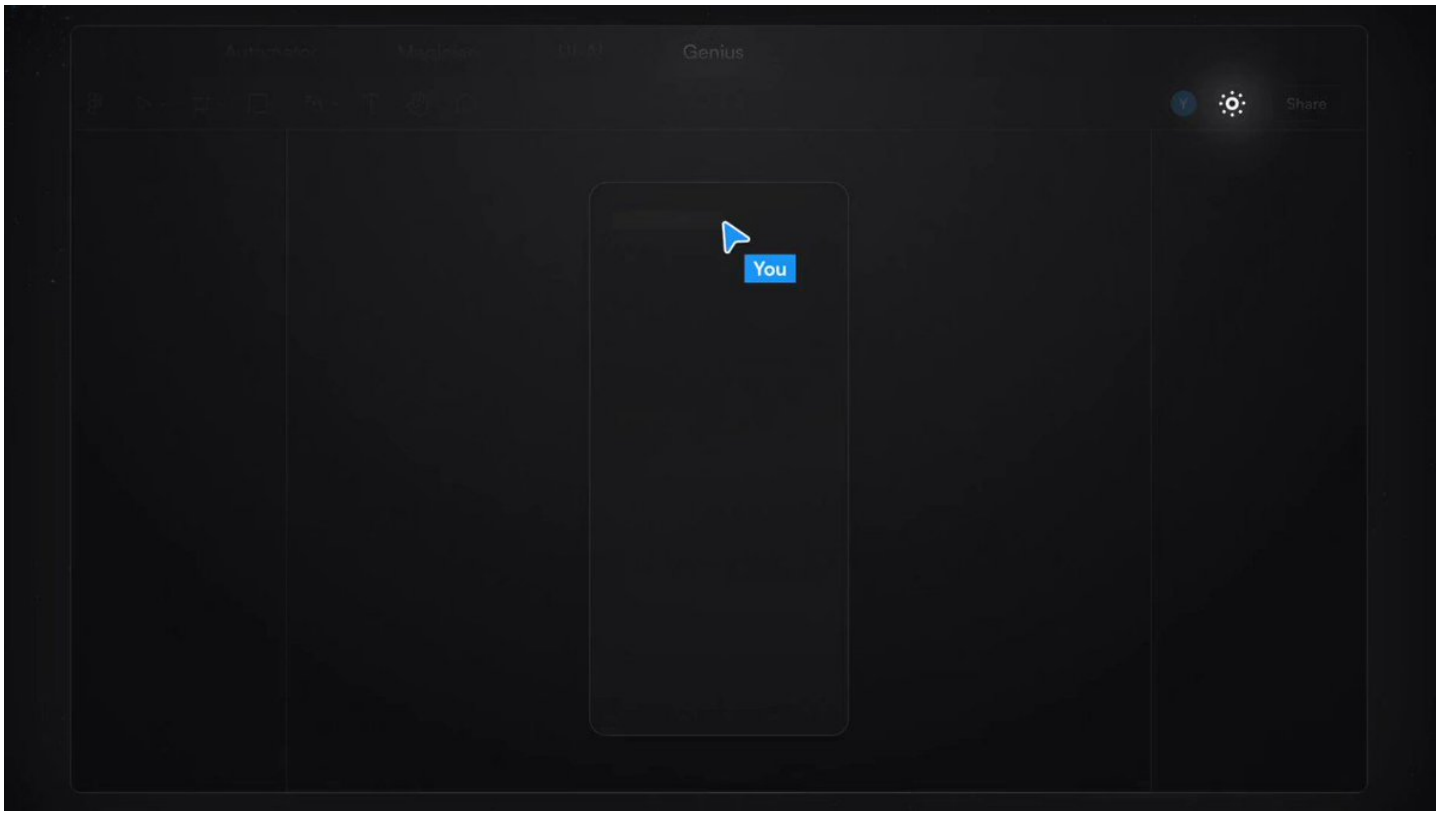
RIP website designers

Here are a few new AI UI Design tools, that will flip the industry upside down.

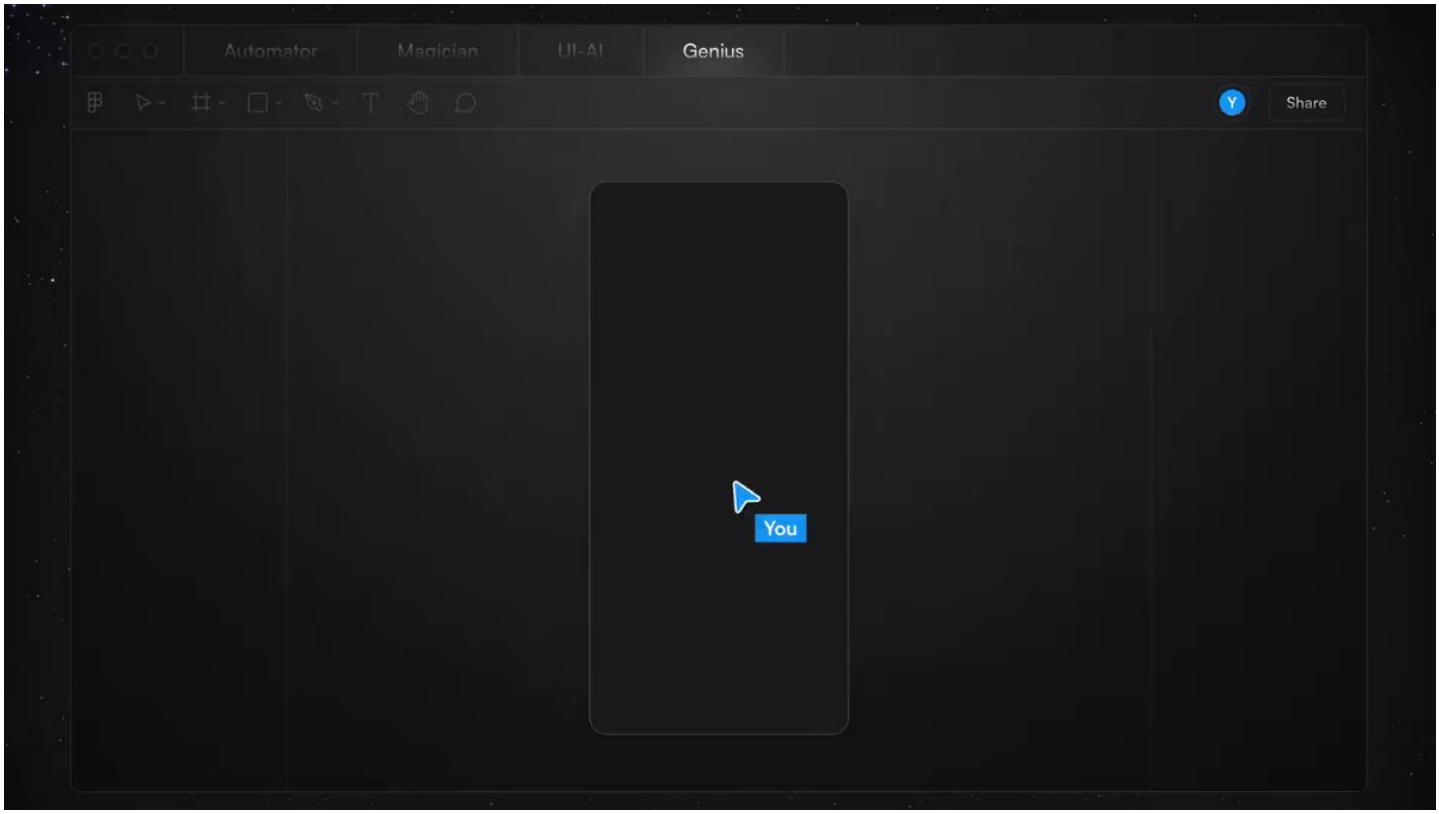
■■■



1. ■ Introducing Genius, your AI design companion in @figma by @diagram

It understands what you're designing and makes suggestions that autocomplete your design using components from your design system.

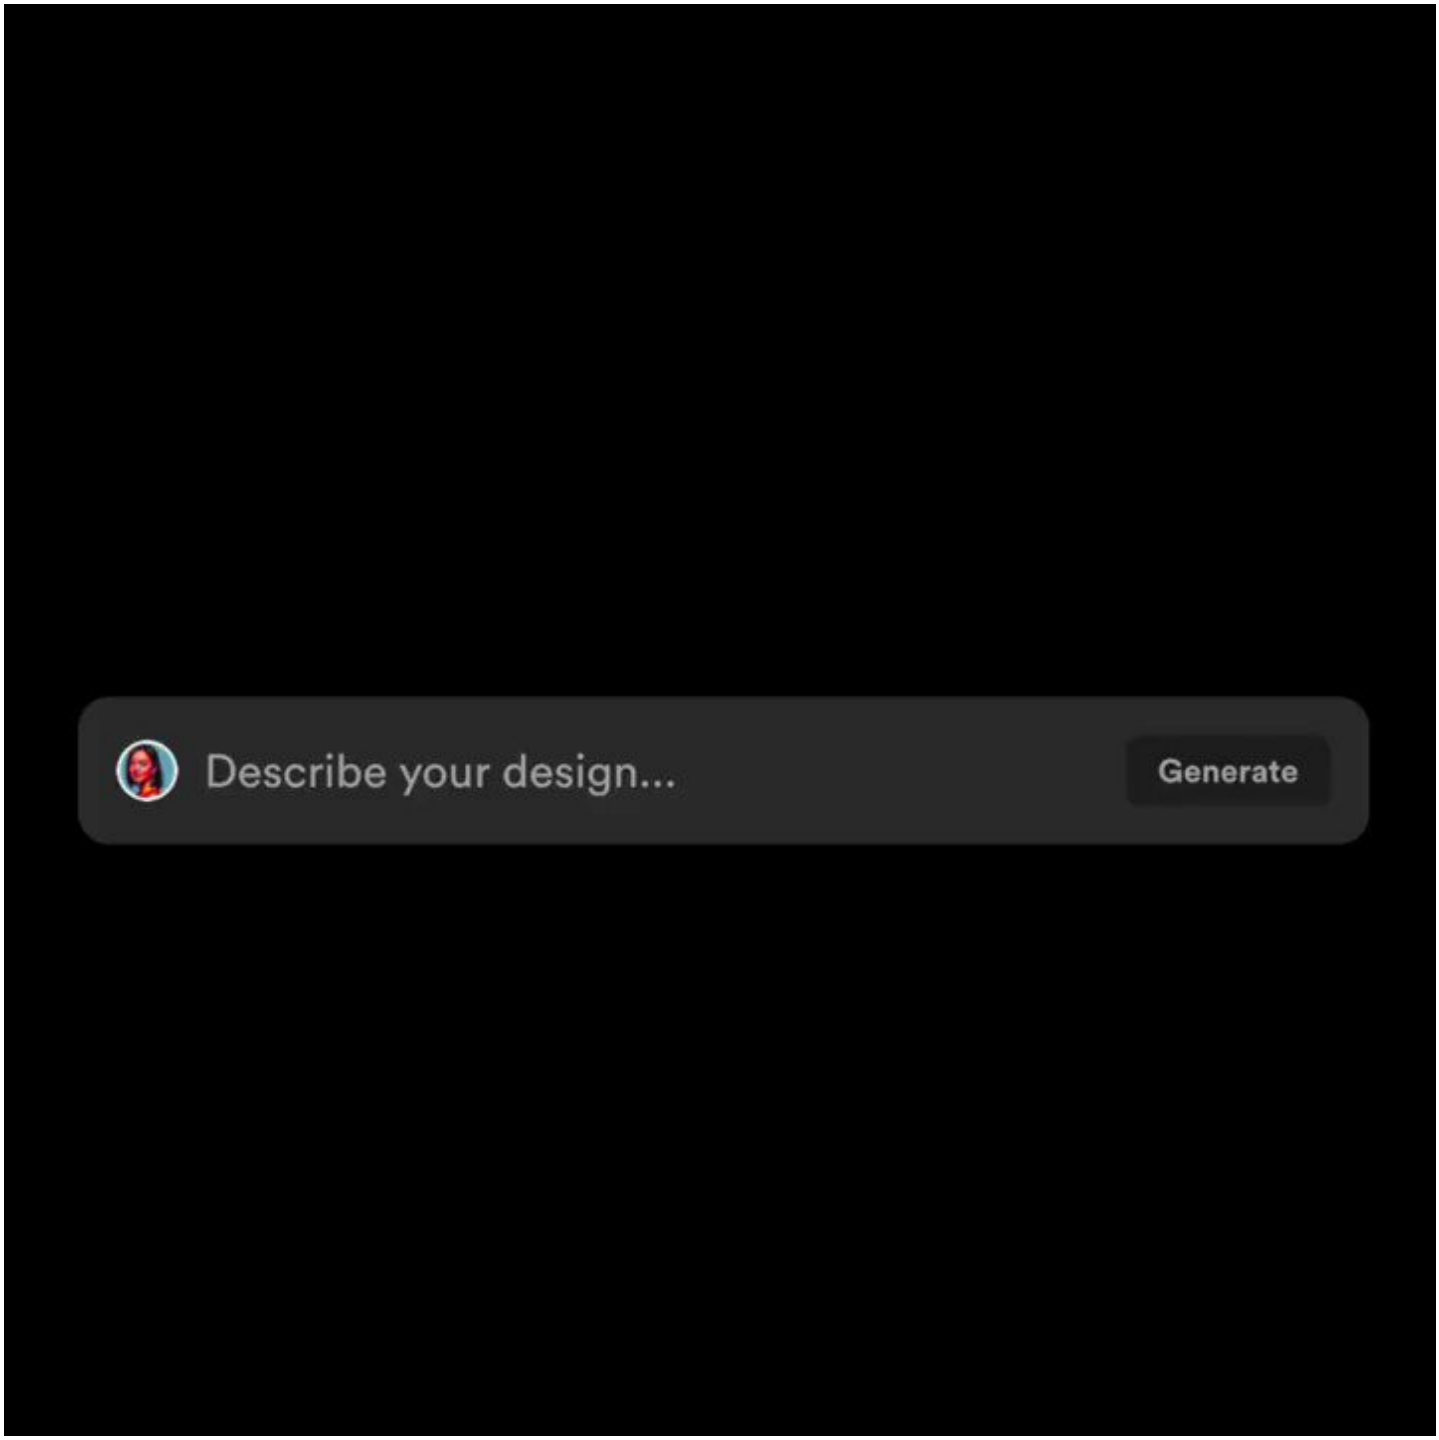
Genius is coming soon. Join the waitlist → https://t.co/5w2O99JPXY



2. Generative AI takes a big step and comes to user interface design!

@Galileo_AI by @helnzhou & @arnaudai

Early access: https://t.co/GbAkBhLVE6



3. The secret is out ■

Generate a multi-screen UI design from a single prompt with @uizard Autodesigner.

Want to be the first to try Uizard's new, groundbreaking technology? Head to https://t.co/Ek5YWjXhfM to sign up for exclusive access.

■ coming soon ■
