I promise I will reply to DM's, I need a few. We have some 911 situations where kids are elderly or freezing so I need to stop and help dispatch to get them help. Hang tight appreciate the help

I have to mute this thread because I'm missing tags for assistance but we have people monitoring

We need a location for both Houston and Dallas where we can bring food and have people come pick-up.

We have a bunch of food but nowhere to get organized

Got this figured out for Houston and Dallas.

The guys are setting up food depots to make it easier for our drivers to make deliveries.

Donation use

Feb 17th update:
- all emergency requests have been contacted and are being assigned a driver for supply dropoff or transportation (elderly, disabled, medical, kids)
- volunteers worked around the clock calling stores, families, hotels, organizing data for us

- hotel rooms have been booked for emergency people (freezing, medical, elderly, etc) and families (small children, elderly), etc. this isn't the only criteria

We begin again tomorrow. We really need help on the ground tomorrow for Dallas and Houston.

We need drivers:
- grocery runs to buy supplies food, & water
- dropping off supplies to families
- transport to hotel or warming center

Fill out this form if you can be on the ground, please fill out this form or DM @XaviercMiller
