HATSUN at 1000. The unseen compounder in this space. People looking at PE went with Parag & Prabhat, whereas this guy has been compounding wealth since the last couple of decades, surely should be doing something right!

On the chart, ABC Breakout on 1% Box Size chart. https://t.co/nHmunGNJ5a

Don't get shocked by looking at HATSUN.

The stock has gome Ex-Bonus, you get 1 share for every 3 shares held.
Stock is up 10% today after bonus.

Massive wealth creation happening.

Don't be surprised to see it trading above 1000 even after bonus. https://t.co/ztXMGyTdwh
