## This scan will give you linear/smooth/non-choppy trends which are great for pullback trades for working people.
## #BroTip

> If you want to trade only stocks with established trend/momentum, then you can look for stocks which have never(or barely did) closed below a certain MA (say 50MA) in the last say 50 days.
>
> There are countless ways to run scans. Just have to get creative. #BroTip
