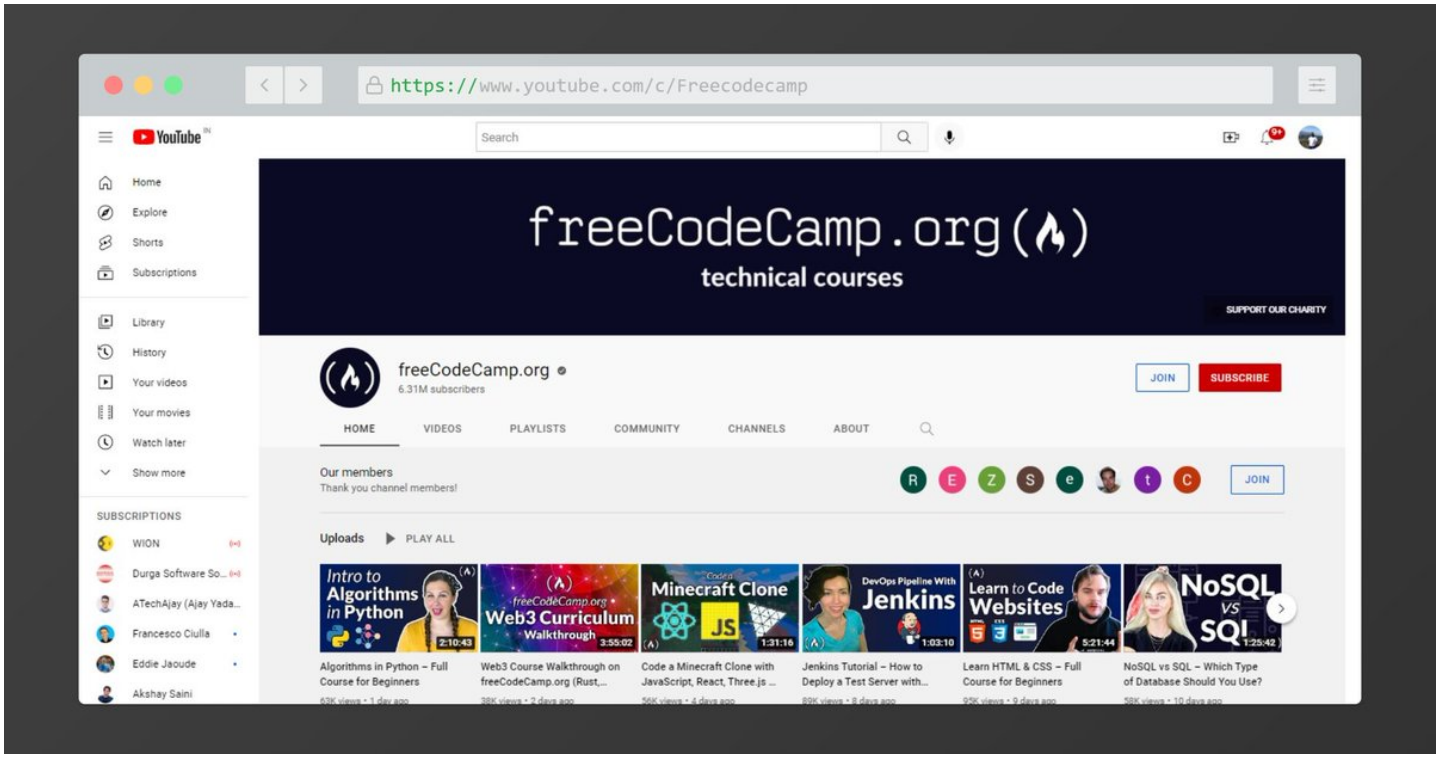
These 5 youtube channels will teach you programming more than a CS degree

■■

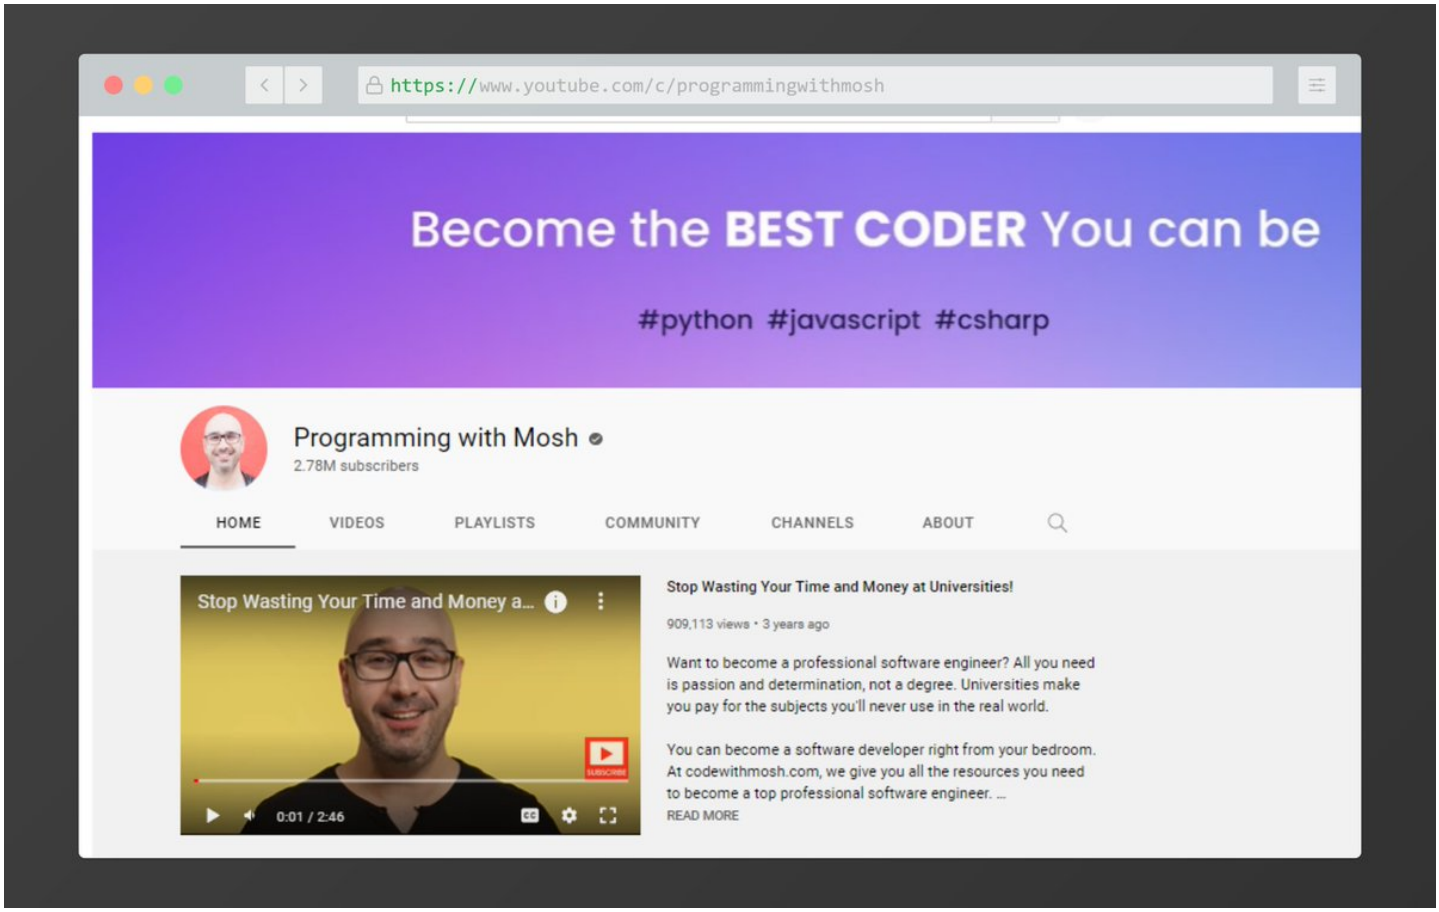
1. FreeCodeCamp

https://t.co/RQae8ZU2wx



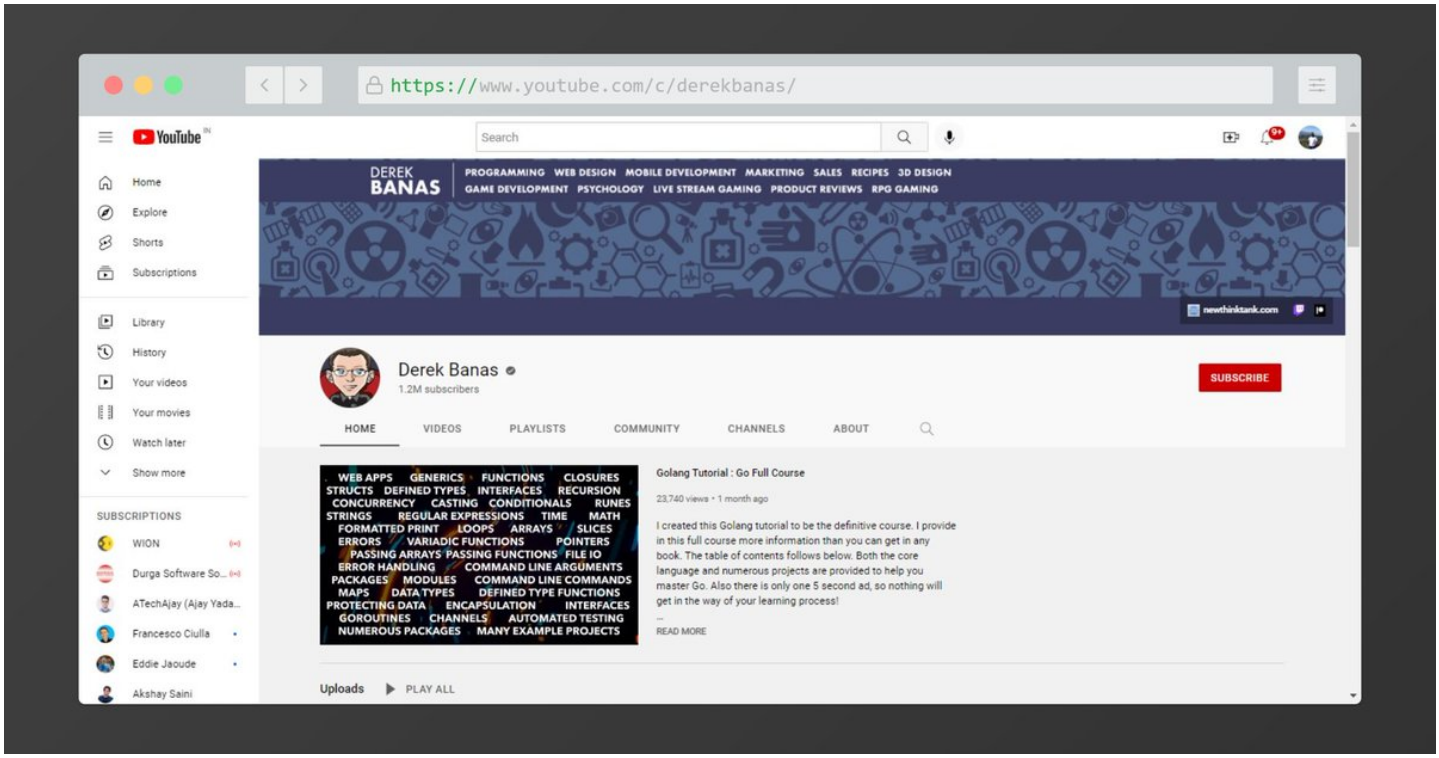
2. Programming with Mosh

https://t.co/NkaUHP5Waa



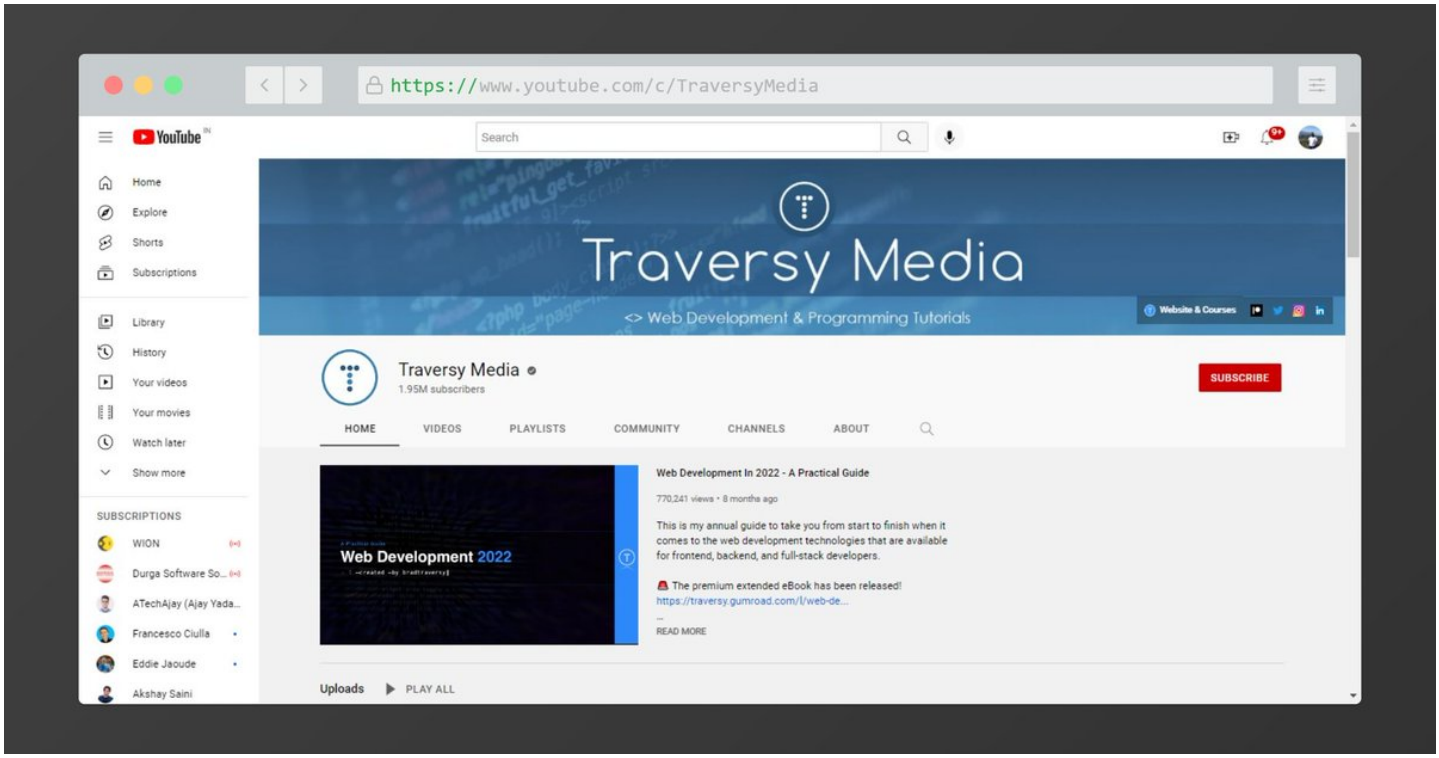
3. Derek Banas

https://t.co/yIe2G1wskd



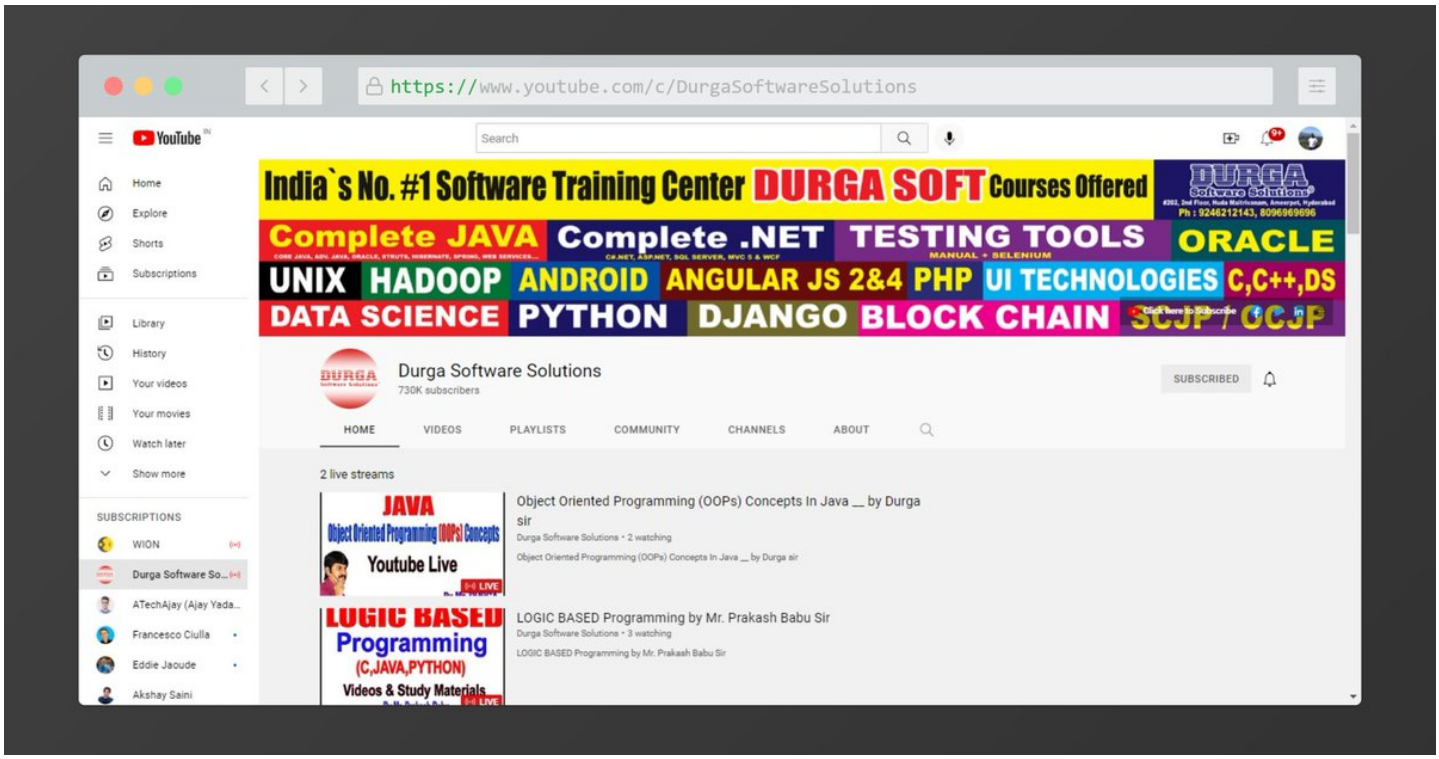
4. Traversy Media

https://t.co/LQgK4nze2g



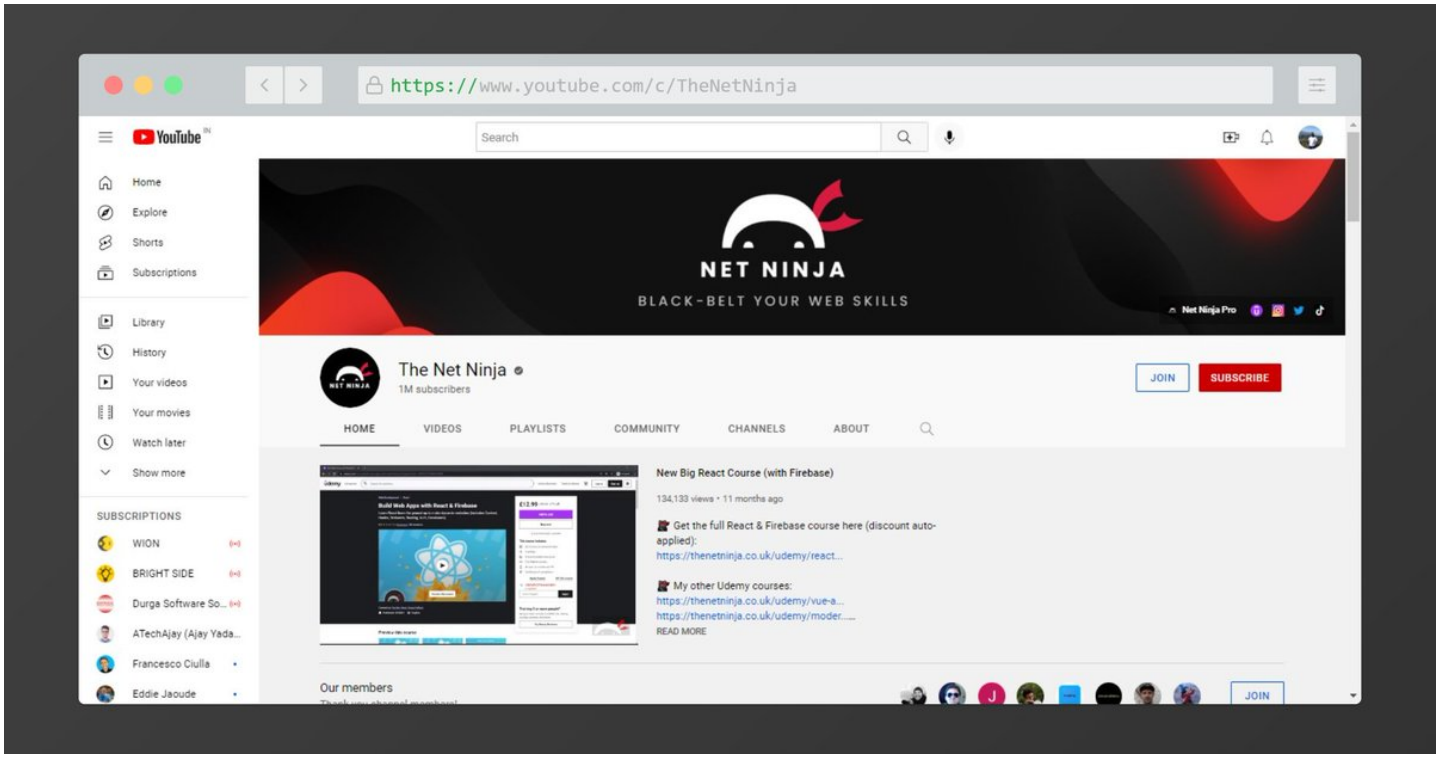
5. Durga Software Solution

https://t.co/UPfq95gHfi



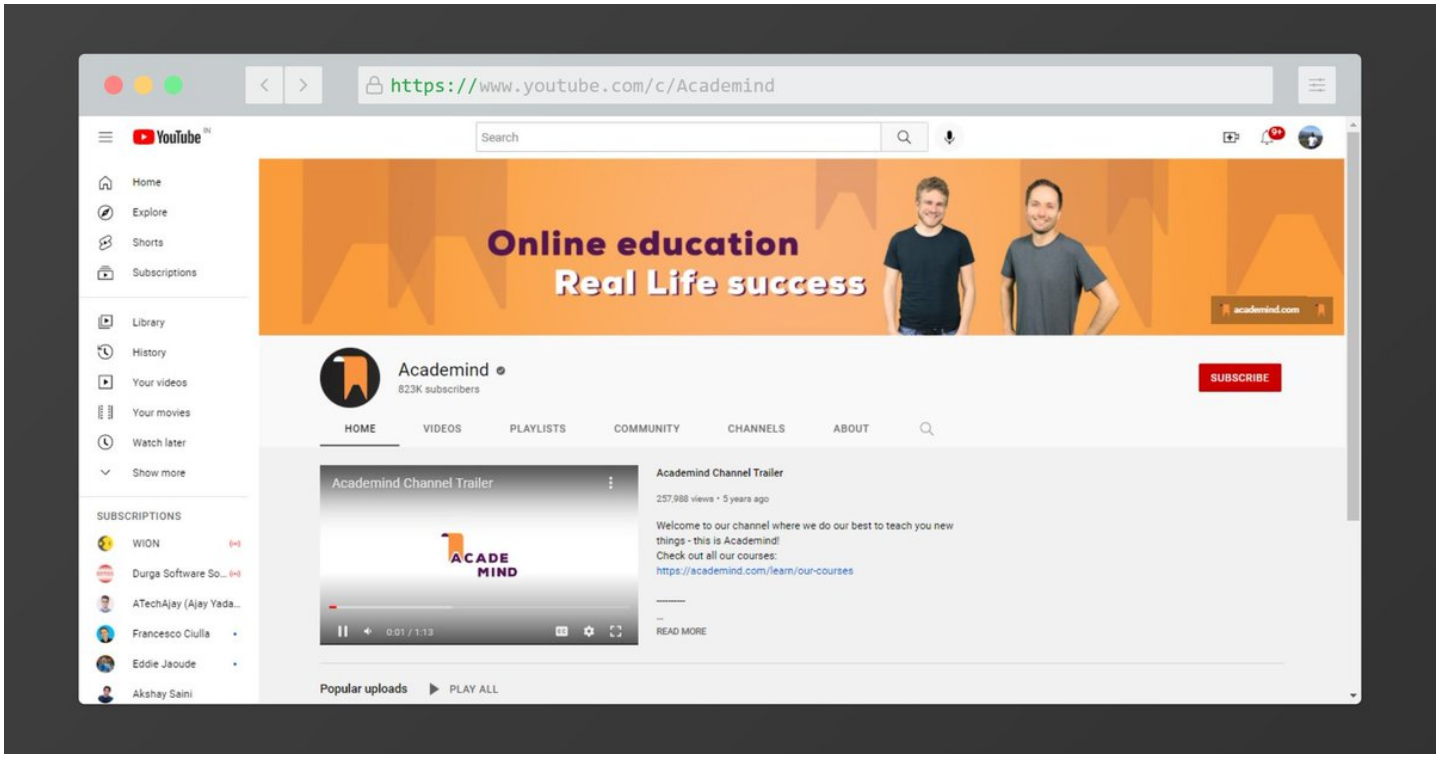
6. Netninja

https://t.co/I4hk8kbFcI



7. Academind

https://t.co/GYh8fkO5EH



Before you go, do you know?
I've also started writing on LinkedIn.

I share some exclusive content there, which I never share here.

Follow me on Linkedin to stay updated with Backend content:

https://t.co/XgytLk3FWg

Namaste, I'm Vikas!

Every Mon, Wed & Friday - I tweet a thread on Backend Development.

Follow me @vikasrajputin to read all my future threads.

Like and RT the first tweet below to support my work. https://t.co/u6vE7NnsBp

***7 youtube channels

Note:

- This thread is written from a programming perspective only

- Most CS degrees don't make you an employable programmer

- To become that, you should refer to these channels

- I've nothing against CS and don't want anyone to quit their degree after reading this thread.
