You guys slaughtered it. Not even kidding. So the take away? The phoenix is about to be birthed. Phoenix is the sun. 12/21 is "Moonday", or Monday. 91 represents the phoenix. See how its a rebirth number opposite of 19 or the end? But know there will be some chaos. 11-11

Is a parallel number which represents two worlds colliding. The spiritual and physical. Im not joking. In occult, eagle represents the physical while the phoenix is the spiritual. Like a brilliant person said, "alpha neo" is code for A N or 1-14 when converted. Ill post

my thread to help with this. So anyway, you see how America is big in all of this? The eagle. Physical. The internet of value "Phoenix" is birthed to represent the digital/spiritual. Hence why a digital thing is always correlated to a mythical/spiritual creature.

You might find my thread a tad more interesting now...

> Long story short, 12/21 will be a big day I believe for us. 12/3 and 12/12 reflects that as well with the 123s. 1 month having three, 123s now that I look at it. Interesting to say the least. Either way, I gave what many of you wanted. A date. Backed it up even. So let's relax

So, as almost 30 years ago the internet was birthed, we know have the internet of value being birthed. In 3s

Covid-19 to cause financial death
Phoenix 91 to birthed financial life
All in the month of wealth
Sun-Moon
The bear and gold
