■Ted Cruz, Ali Alexander, and CJ Pearson.

The road to the January 6th insurrection.

Thread

This thread involves 3 main players:
1)Ted Cruz
2)Ali Alexander
3)CJ Pearson.

The first two you are aware of but let me give you a brief overview to give some context.

You've all seen the Stop the Steal clip by now with Ali Alexander.

But what you might not have known is that the person standing next to Ali Alexander on stage with Sidney Powell & Lin Wood is a young republican by the name of:

CJ Pearson

But we'll get back to him soon.

First, let's talk about Ted Cruz.

Cruz was one of the leading & most influential figures responsible for the Jan 6th insurrection.

I won't go too deep into Cruz as we generally know his story. But @donwinslow does a good job of representing his role.

The second player is Ali Alexander (Formerly Ali Abdul Razaq Akbar) but what you may not have known is that Ali has been in this game for a LONG time.

Alexander actually got his beginnings in 2007-2008 during the Tea Party movement to which he claims he co-founded.

Ali Alexander history continued:

In 2008 he worked on John McCain’s presidential campaign
- In the late 2000s to early 2010s he was a massive conservative blogger
- He was bankrolled by Robert Mercer.
-Around 2016 he changed his name to Ali Alexander and supported Trump.

As I said, Ali Alexander used to be huge in the conservative blog circles in the early 2010s and made many powerful friends, including Andrew Breitbart.

In fact, here's a video of him and Andrew Breitnbreit from 2012.

Here's a clip from 2013 featuring Ted Cruz and Ali Alexander.

Try and say you don't know Ali Alexander now Ted.

Ok, let's move on to CJ Pearson.

CJ Pearson started as a 12-year-old conservative activist on YouTube critical of Obama.

Now I don’t think what a kid does or believes in when they’re 12 should define them but I need to set the scene for what's to come.

In 2015, CJ Pearson briefly campaigned for Rand Paul's in which he described Rand Paul as having a "unique ability " to connect with Millenials

Later in 2015, CJ Pearson left Rand Paul's campaign and joined Ted Cruz's presidential campaign as the Chairman of "Teens for Ted."

Try to deny knowing CJ Pearson, Ted.

TedCruz 2016

CRUZ NAMES CJ PEARSON AS NATIONAL CHAIRMAN OF "TEENS FOR TED"

Adam Hoffman and Wyatt English to serve as National Co-Chairs

HOUSTON, Texas — U.S. Sen. Ted Cruz, R-Texas, today named YouTube sensation CJ Pearson of Georgia as National Chairman of the "Teens For Ted" coalition. Political activist Wyatt English of Iowa and Secretary of the High School Republicans of Texas Adam Hoffman will serve as co-chairs.

In 2016 while campaigning for Sanders, he made an anti-Trump rap:

“He’s a racist and a bigot; he wants to build a wall, he’s a Neanderthal.” - CJ Pearson

(he briefly supported Bernie sanders – once again, I don’t fault a kid for political affiliations)

In mid-late 2016 once Trump had won the primaries, CJ Pearson, aged 14, joined the Trump Campaign and became the National Chairman of Teens for Trump.
