2/ Local Biz

Use <https://t.co/B53qu5yEly>

"Find B2C local businesses"

Specify country, state, city, sort by ratings.

Instantly unlocks generic email addresses.

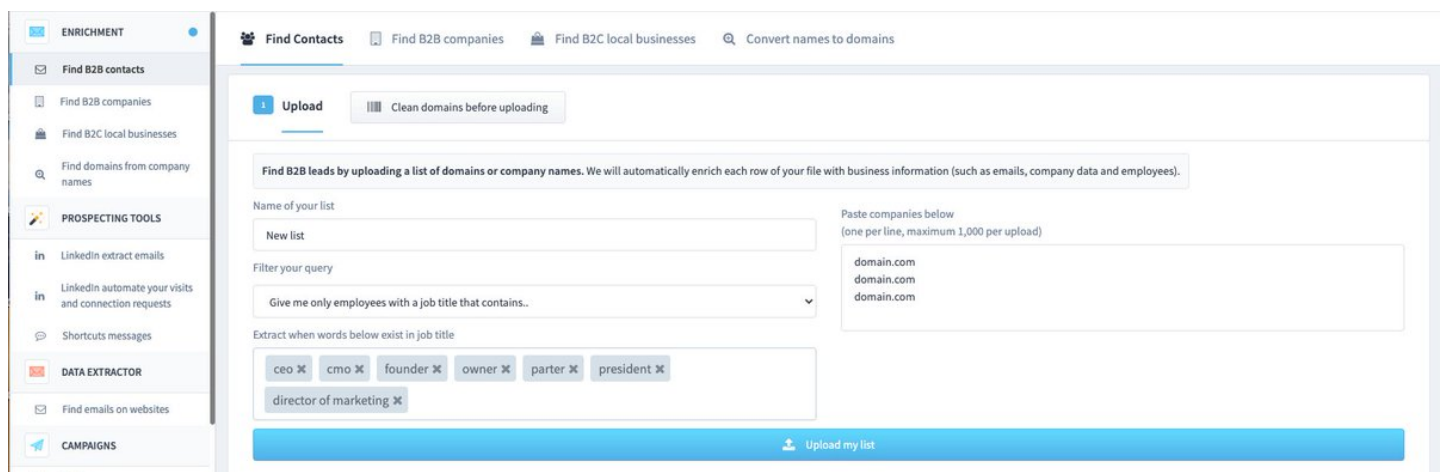

But wait

You need direct owner emails.

Take the list of domains, and plug them into Klean Leads "Find B2B contacts"

CEO
CMO
Founder
Owner
etc.

It will process and spit out *direct* email addresses of the titles you specify.

3/ LinkedIn Searches

Let's scrape marketing agencies.

Go to LinkedIn and type in "marketing agency" (just an example)

Click "all filters"

Connections: 2nd, 3rd

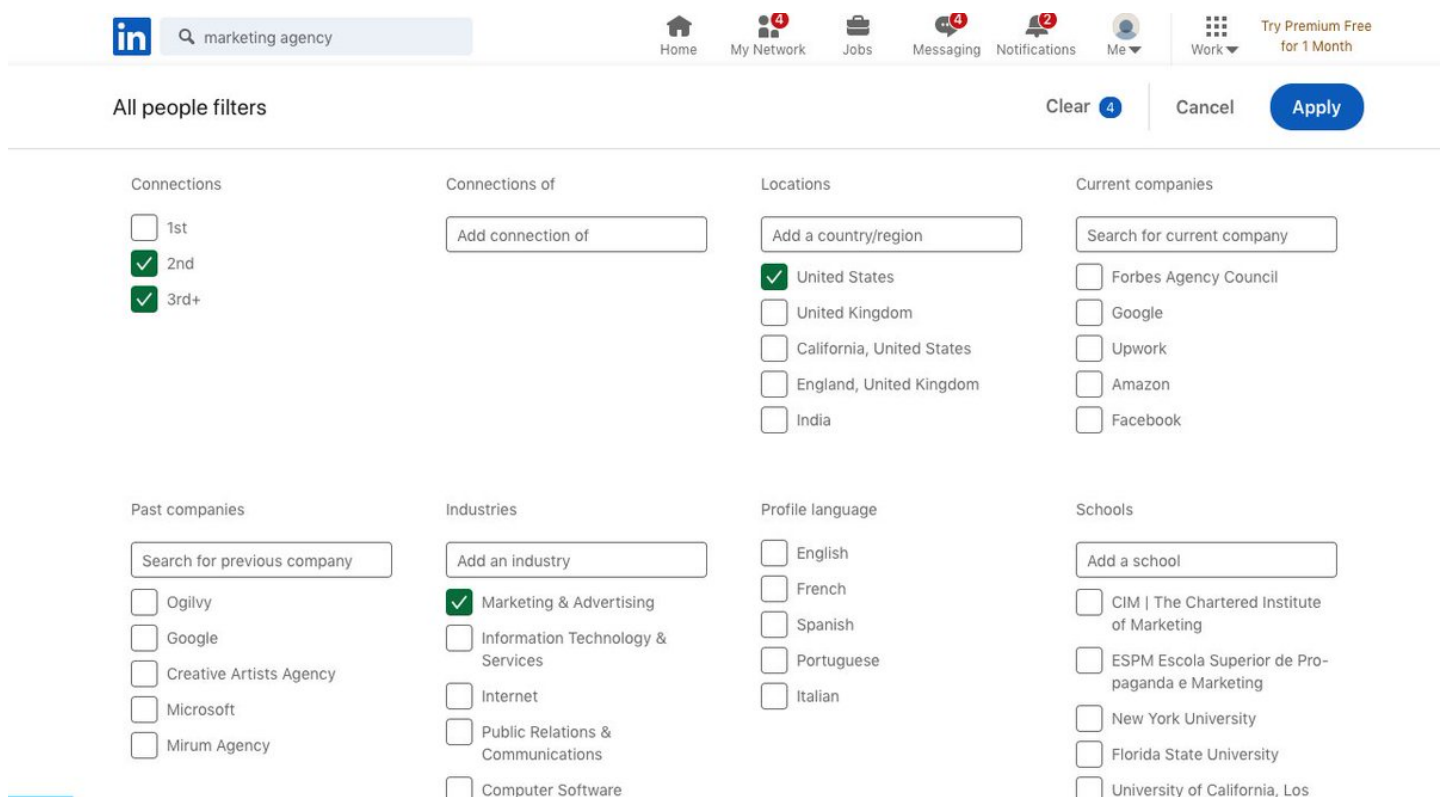

Location: US

Industry: Marketing & Advertising

Titles: owner OR founder OR CEO OR CMO

Ready?

Let's scrape it

The image shows the LinkedIn search filters interface. At the top, there's a search bar with "marketing agency" and a navigation bar with icons for Home, My Network (4), Jobs, Messaging (4), Notifications (2), Me, and Work. Below the navigation bar, the "All people filters" section is active, showing a "Clear 4" button and an "Apply" button. The filters are organized into eight categories:

- Connections:** 1st, 2nd (checked), 3rd+ (checked).
- Connections of:** Add connection of.
- Locations:** Add a country/region. United States (checked), United Kingdom, California, United States, England, United Kingdom, India.
- Current companies:** Search for current company. Forbes Agency Council, Google, Upwork, Amazon, Facebook.
- Past companies:** Search for previous company. Ogilvy, Google, Creative Artists Agency, Microsoft, Mirum Agency.
- Industries:** Add an industry. Marketing & Advertising (checked), Information Technology & Services, Internet, Public Relations & Communications, Computer Software.
- Profile language:** English, French, Spanish, Portuguese, Italian.
- Schools:** Add a school. CIM | The Chartered Institute of Marketing, ESPM Escola Superior de Propaganda e Marketing, New York University, Florida State University, University of California, Los Angeles.

Klean Leads "LinkedIn extract emails"

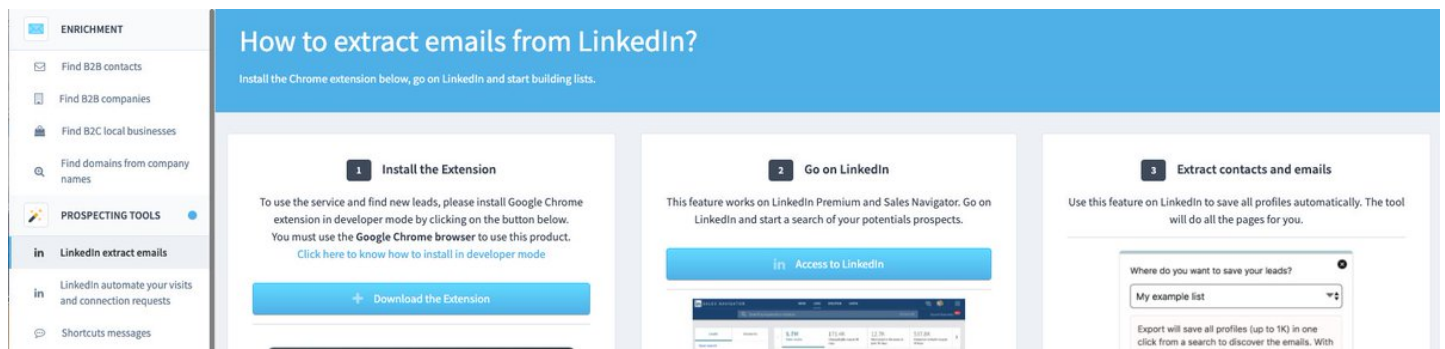

Download the Chrome Extension

Go back to LinkedIn. You'll see these boxes on the bottom left.

Click "emails extractor"

Another box will pop up.

Just click "extract emails from this search"

Leave it for a couple hours.

I let mine run for ~15 minutes and got 121 emails.

Download as CSV

Now you've got their direct email

No info@ or support@

The PERSON'S email.

4/ Info product providers

Course sellers.

Download Growmeorganic

Pick an influencers followers. Somebody in online marketing.

Scrape their followers.

Further filter by strings in the bio

"I help, I teach, coach, consultant"

Go through them to make sure they're good

- Fetch Hashtags Users
- Fetch Media Likers
- Fetch Media Commenters
- Fetch User Followers**
- Fetch User Followings
- Fetch Users from List

Enter the username of a Instagram profile to scrape all of their followers.

e.g.- garyvee

rocnation

Settings
