Scientists who have died during #CONGRESS rule
1) Homi J Bhabha 24 January 1966
Reason Plane crash at Mount Blanc , Alps
Gregory Douglas revealed CIA was responsible for assassinating Homi Bhabha no investigation done

2) Vikram Sarabhai 30th December 1971
Hailed as the father of India's space programme, was found dead in a hotel room in Kovalam. He had shown no signs of illness the previous evening and died rather mysteriously. His cremation was performed without even an autopsy.

3) Lokanathan Mahalingam Jun 12, 2009 He was working at the Kaiga atomic power station in Karnataka, apparently went out for a morning walk & never returned. His body was found 5 days later. Why was the scientist's body cremated before the DNA tests were released?

4) M Padmanabhan Iyer February 23, 2010. was found dead in his residence Finding no fingerprints or clues at crime scene, the forensics declared the cause of death "unexplained" and the investigations came to a standstill

5) K K Josh and Abhish Shivam October 7 ,2013 Two high ranking engineers on India's 1st nuclear-powered submarine were found at railway tracks near Vizag They were not hit by any train, but yet were dead. They were poisoned elsewhere before being placed on the tracks.

6) Mohammad Mustafa 2012 He was only 24 years old when his body was found inside his quarters at Kalpakkam in 2012 Apparently, the young scientist had slashed his own wrist. No suicide note found

7) Umang Singh and Partha Pratim Bag December 30, 2009 They were a couple of young nuclear researchers at the Bhabha Atomic Research Center and both were burnt to death in a mysterious fire.forensic reports said there was nothing the room that was inflammable in the room

8) Titus Pal 5th March ,2010 who worked at the BARC, was 27 year old when she was found dead in Trombay. She was found hanging from the ventilators at her campus residence of BARC

9) Dalia Nayek 23rd August 2009 was a senior researcher at the Saha Institute of Nuclear Physics. she had allegedly consumed mercuric chloride and died at the hospital the next day

10) Uma Rao Scientist BARC April 30,2011 found dead in her house reason cited by police an overdose of sleeping pills Her colleagues, however, did not agree that Uma Rao ever showed any signs of depressions or suicidal tendencies for that matter.

11) Tirumala Prasad Tenka April 12th ,2010 30 yrs old scientist, working at Raja Ramanna Centre for Advanced Technology was found hanging
