Yep it happened as I explained a while back and is the reason a number of assets including yours truly has fled the Country for warmer climes, women, fishing and the good life. Boys we got caught and how deep this rabbit hole goes is going to be galactic. Seems the Biden Campaign and Hillary Clinton and her folks are right in the middle of this. Wait for the President`s national address before the electoral college convenes. Once this is out even Democrats will be screaming to hang Biden.
