#RIL tgts are 2180 and 1820 positional over next few months if the high made at 2856 doesn't cross.

Not looking good.

#RELIANCE update

Was expecting 5th wave rally towards 2800-3000 as mentioned in previous post

Move played out, but now not worth chasing anymore

Not saying the move is over, it can still go up bit more, but riskreward not good for positional longs now on, I would stay away. https://t.co/eoLshLoLBD pic.twitter.com/G0qZAEBRIX
