For the 20,000 victims of non-fatal strangulation and suffocation, I urge Parliamentarians to take action now and amend the Domestic Abuse Bill. This needs to be a stand-alone offence. If this opportunity is missed women will die. #NonFatalStrangulation

Police could much better support victims if there was a stand-alone offence of Non-Fatal Strangulation. 80% of survivors are likely to have a resulting health problem e.g. stroke or PTSD. The Lords should amend the Domestic Abuse Bill to fix this. #NonFatalStrangulation
