Twitter Thread by Garrett Hughes

Garrett Hughes
@_garretthughes

1. Ultimate blockchain, NFT and crypto learning thread ■

(warning 100's of hrs of content)

2. @CalBlockchain 's Spring 2021 fundamentals course: slides and recordings:
https://t.co/D9Qwt9Y6zu

3. @tferriss @naval and @NickSzabo4 's podcast about crypto and bitcoin:
https://t.co/eEJy356odP

4. Similar one to previous but @tferriss, @naval and @VitalikButerin 's podcast on scaling, ETH, NFTs and more
https://t.co/DRQwQWHVho

5. @a16z Crypto startup school:
https://t.co/wy21uw6qwH

6. @opensea 's all encompassing NFT guide:
https://t.co/LLujPW9cx4

7. Understanding off-chain data with @KyleTut of @IPFSPinata
https://t.co/xHxuV5jcbg

8. @a16z Crypto Glossary:
https://t.co/n7gjICWjKu

9. @cdixon 's essay on NFTs and a thousand true fans (must read for people getting into NFT's IMO).

https://t.co/B8HfP2USOH

10. For blockchain devs (or people trying to get into Solidity)... this is best tutorial out there:
https://t.co/btUuUALVc8

11. Not solely focused on blockchain but great talk throughout around the subject with @naval and @joerogan on the Joe Rogan Experience
https://t.co/ypUJxbCBRT

12. @coinbase 's beginners guide to DeFi (decentralized finance):
https://t.co/r4Ggz6uP77

13. @balajis on why you need blockchain (from a dev approach):
https://t.co/5SkK7wFXFL

14. @pmarca 's article on why Bitcoin matters (peep that date):
https://t.co/1X6mrd54t2

15. For anyone getting into tokenomics this @VitalikButerin is a must read on analyzing the sale models:
https://t.co/61llZyS0z5

16. Another good primer for NFTs and decentralized web with @garyvee and @CoinDesk (this is a short 15 min guy):
https://t.co/4gQEOviQ5A

17. Why sharding makes sense by @VitalikButerin
https://t.co/nAYpuWPqyu

18. and on that same note - the limits to blockchain scalability is also up there as a must read by @VitalikButerin as well:
https://t.co/PTSoWCUYJN

19. Bonus (heady) round here on crypto-civilizations by @balajis on @BanklessHQ. This REALLY opened my eyes to some possibilities I couldn't have even thought of in my dreams.
https://t.co/qp161jfGve

20. Forgot about rollups - those are important to understand too. Rudimentary article by @VitalikButerin
https://t.co/5aPOxzIgne

21. @Consensys 's article on PoS (proof of stake) and PoW (proof of work)
https://t.co/SX5HPwa9dd

22. @coinbase 's article on understanding web3 approach and mapping through the infrastructure of web2 vs 3 (great dev article)
https://t.co/P6tJZvlnHC

23. @Stanford 's open course for cryptocurrencies, blockchain and smart contracts
https://t.co/9jx6rCIQHa

24. @balajis on what blockchain has already helped push the envelope on:
https://t.co/Gzl0VhmsrK

25. @FEhrsam 's article on why ETH is the forefront of digital currency:
https://t.co/7Jddh8anyh
