Negative votes & vote switches should \*NEVER\* happen on your CNN, ABC, & NBC live news feeds. This is according to the data scientist & programmers who presented at the State Senate hearings. They previously worked for the US Navy, the CIA, & Big 4 Accounting Firms.■

Elections are an additive process — you count the votes — and add them up. Votes should never be going down on live television. Votes should never be switching between candidates on live television. This is election fraud & it happened all across the nation.■

It happened last night.

774,723 - 742,323 = 32,400

32,400 votes subtracted from <a>@Perduesenate</a> live on ABC last night during the Senate Runoff.

2,130,535 - 2,125,535 = 5,000

32,400 votes subtracted from <a>@Perduesenate</a> live on ABC last night during the Senate Runoff.
