Robin Monotti enquiring about Article 6 of the UNESCO Universal Declaration on Bioethics and Human

Article 6 of the UNESCO Universal Declaration on Bioethics and Human Rights

Article 6 – Consent

1. Any preventive, diagnostic and therapeutic medical intervention is only to be carried out with the prior, free and informed consent of the person concerned, based on adequate information. The consent should, where appropriate, be express and may be withdrawn by the person concerned at any time and for any reason without disadvantage or prejudice.

2. Scientific research should only be carried out with the prior, free, express and informed consent of the person concerned. The information should be adequate, provided in a comprehensible form and should include modalities for withdrawal of consent. Consent may be withdrawn by the person concerned at any time and for any reason without any disadvantage or prejudice. Exceptions to this principle should be made only in accordance with ethical and legal standards adopted by States, consistent with the principles and provisions set out in this Declaration, in particular in Article 27, and international human rights law.

3. In appropriate cases of research carried out on a group of persons or a community, additional agreement of the legal representatives of the group or community concerned may be sought. In no case should a collective community agreement or the consent of a community leader or other authority substitute for an individual's informed consent.

Why do you think the UK Health Security Agency (UKHSA) was formed in 2021?
I'll tell you why. ■■

"The need to use human augmentation may ultimately be dictated by national interest."

In essence -
People will have to submit to the ■ in the name of "National Security. https://t.co/oJDfVwtNKD

> This should terrify you.
>
> "There may be a moral obligation to augment people... It could be argued that treatments involving novel vaccination processes and gene and cell therapies are examples of human augmentation already in the pipeline..." https://t.co/2ukFs3d5RT pic.twitter.com/YSAdsqM96C

UN is the epitome of a Wolf in Sheep's Clothing. Gro Harlem Brundtland, mother of "Sustainable Development" & the Brundtland Report "Our Common Future" (the foundation for #Agenda21 & #Agenda2030) co-chaired the Global Preparedness Monitoring Board 2018-21 https://t.co/ZoDbZXXiKw https://t.co/nzMkKUazgf

“You may have this right, except as may be provided for by law”

"Anybody who would read the UN documents with just as much care as they would read a used car sales contract, they would never sign on to this system."

- @GEdward_Griffin

■■■

Make no mistake, the LEGALLY BINDING Pandemic Treaty, will undoubtedly include MANDATORY VACCINATIONS and VACCINE PASSPORTS. Fighting this is therefor our most important task at this moment in time. WE CANNOT AFFORD TO LOOSE this fight.
https://t.co/dVBMvfyx2P

■■■

The UNESCO Universal Declaration on Bioethics and Human Rights is NOT a legally binding instrument. A Pandemic Treaty (currently in the works) WILL BE, and will undoubtebly encompass MANDATORY VACCINATIONS & VACCINE PASSPORTS. > https://t.co/l7k2p0JUuA

Get it?

Remember what Article 29 of the UN Declaration of Human Rights says?

"3. These rights and freedoms may in no case be exercised contrary to the purposes and principles of the United Nations."
