The word Anunnaki means ‘princely blood’ also known as the father and kings of god. During the ancient aliens the Anunnaki transferred the knowledge to ancient man. They are also known as people who came from heaven or stars.

During 19th century the archaeologists of ancient Nineveh discovered 22,000 clay tablets connected with Anunnaki. In the book “The Earth Chronicles” they have mentioned that the Anunnaki came to earth to mine gold.
