Here is a thread on the timeline of these farmer protest and the events around it. I have tried to connect a few dots to stitch the whole story behind the motive of the protests and the agitation.

Kindly join me on the next 30 tweets while I take you through the chronology.

04 Jun 2020

Union Cabinet cleared 3 ordinances meant for reforms in Agricultural sector.
These proposed reforms came in the backdrop of the speeches made by PM Modi and Nirmala Sitharaman in May 2020, during the announcement of 20 lac crore Covid relief package.

04 Jun 2020

Leader of Bharatiya Kisan Union (BKU), Rakesh Tikait, welcomed the ordinances saying that years old demand of the farmer's got fullfilled.

Welcoming the ordinance seemed obvious because who won't be happy to get a bigger market and more buyers for their produce.

किसानों की वर्षो पुरानी मांग पूरी हुई : राकेश टिकैत

हिन्दुस्तान टीम,मुजफ्फर नगर

Last Modified: Thu, Jun 04 2020. 12:07 IST

देश के 14 करोड़ किसानों को एक देश एक मंडी का तोहफा देते हुए सरकार ने किसानों को अपनी उपज कहीं भी बेचने की अनुमति दे दी है। कैबिनेट ने अध्यादेश के जरिए इसे मंजूरी दी है। भाकियू के राष्ट्रीय प्रवक्ता राकेश टिकैत ने सरकार के इस कदम का स्वागत किया है और कहा कि यह भाकियू की वर्षो पुरानी मांग थी।

09 Aug 2020

After more than two months of the promulgation of the ordinance by the cabinet, first ever voices against the laws were heard in Hyderabad and a few parts of Punjab. Major apprehensions were expressed against the provisions around the

stubble burning issue.

AIKSCC holds protests against agri Ordinances

Our Bureau | Hyderabad | Updated on August 09, 2020 | Published on August 09, 2020

17-20 Sept 2020

All the three bill were presented and cleared in the Lok Sabha and Rajyasabha. The then Food processing Minister, Harsimrat Badal, resigned and Akali Dal pulled out as a symbolic protest. Interesting thing is that Rahul Gandhi went overseas during same time.

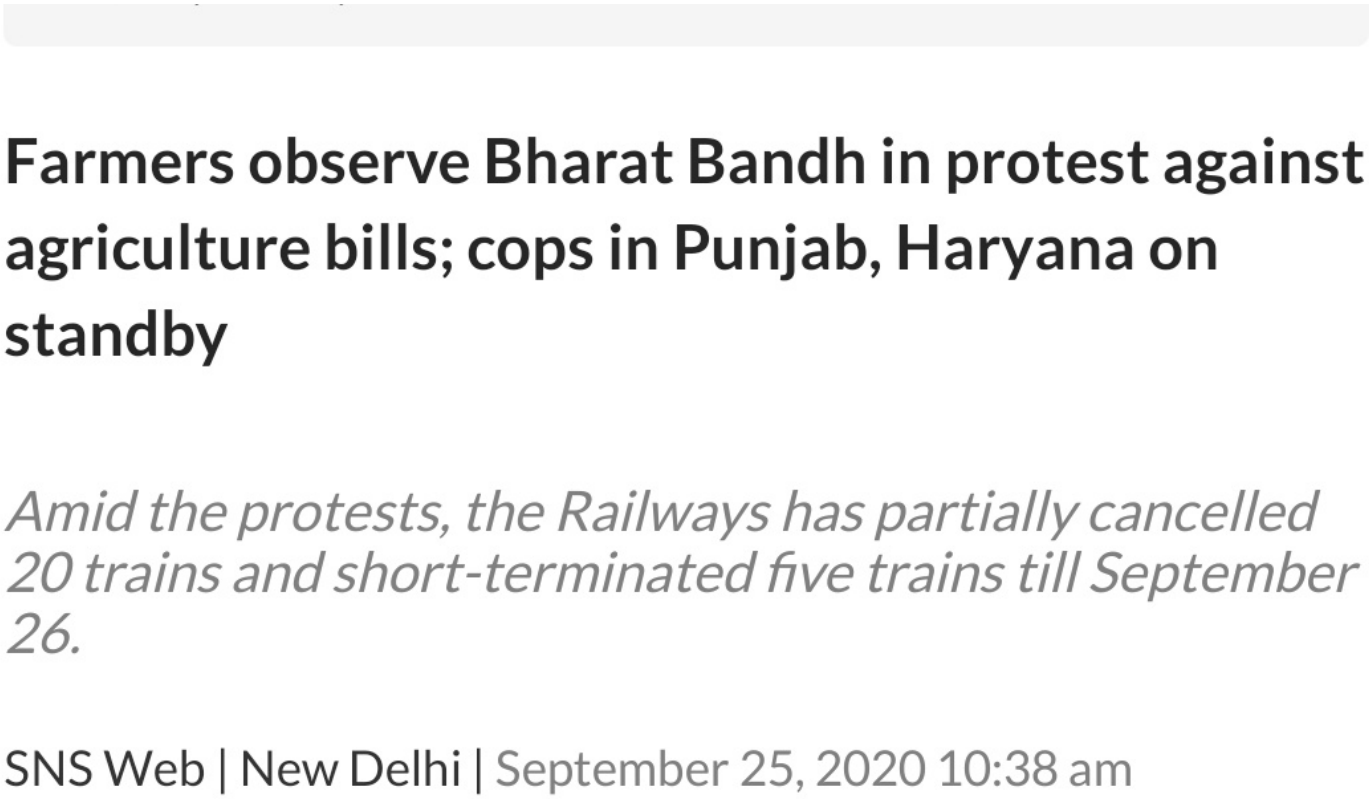

Rajya Sabha passes two key farm bills amid protests

On Thursday, the Lok Sabha passed by a majority voice vote the Farmers' Produce Trade and Commerce (Promotion and Facilitation) Bill, 2020, and The Farmers (Empowerment and Protection) Agreement on Price Assurance and Farm Services Bill, 2020.

04 Dec 2020

Govt offered to make a law around MSP and also offered to tone down the provisions related to Stubble burning, and make a few other changes related to how the tribunal will function but now the associations said that they want nothing less than the laws being scraped

5 Dec 2020

The Indian government and protesting farmers were unable to break their deadlock in talks, with the farmers saying on Saturday they will intensify their demonstrations against new agriculture laws and continue blocking key highways on the outskirts of the capital.

Protest leaders rejected the government's offer to amend some contentious provisions of the new farm laws, which deregulate crop pricing, and stuck to the demand for total repeal.

12 Jan 2021

Supreme court of India offered to make a committee comprising of the stateholders to examine the laws but the proposal

was rejected by the farmer associations.

21 Jan 2021

Govt offered to stay the laws for 18 months for consultation but that was also rejected.

Farmers reject SC committee, demand repeal of farm laws

New Delhi: Farmer unions protesting at Delhi's borders on Tuesday rejected the committee formed by the Supreme Court to resolve the stand-off over the three farm laws and termed it as a "proxy committee" of the government

26 Jan 2020

The farmers during their Tractor Rally protests, breached the Red fort, beat up the police and unfurled a religious/political flag at the red fort.

But why would genuine farmers reject all the offers and take the violant route and violate the national symbols?

Farmer associations have been demanding open markets for decade, they welcomed it when they got it, they expressed their problems which the govt agreed to solve. Then what explains the sudden transition of the tone of the farmers associations and their refusal to co-operate?

24 Jun 2020

Taking you back to June when Donald Trump started a campaign to weaken China by calling them out for "Chinese Virus". The then US Sec of State, Mike Pompeo urged countries to stop working with Huawei on the 5G tech and rather suggested to work with clean teclos.

Secretary Pompeo

@SecPompeo

The tide is turning toward trusted 5G vendors and away from Huawei. The world's leading telecom companies—Telefonica, Orange, Jio, Telstra, and many more—are becoming "Clean Telcos." They are rejecting doing business with tools of the CCP surveillance state, like Huawei.

Now link this to the timeline of Farm bills and think why there were no protests for 2 months between 4th Jun to 9th August, why was everyone well content with the farm ordinance for 2 months and hell broke loose only when India took the war on 5G dominance to next level?

21 Dec 2020

Farmer associations called for a boycott of Jio and Reliance products when the bills are not at all linked to them. So much so that Mukesh Ambani had to come and announce that he has no plans to do contract farming but the protestors still disrupted 1500 Jio towers.

Bundles of Jio's fibre cable have also been burnt in Punjab. (Photo: PTI)

Clearly China here saw an opportunity to create unrest in the country through running and funding the misinformation campaigns on the farm laws. They used the Khalistani elements in UK and Canada, through the ISI network, to pump in the money for the PR Campaigns.

Khalistanis were already roaming around with the so called Referendum 2020 agenda. With the funding from China, they unleashed massive PR and highjacked the Farmer's protests by adding Glitz in terms of sending Diljeet and Deep Sidhu type of people who made it a "Punjabi issue".

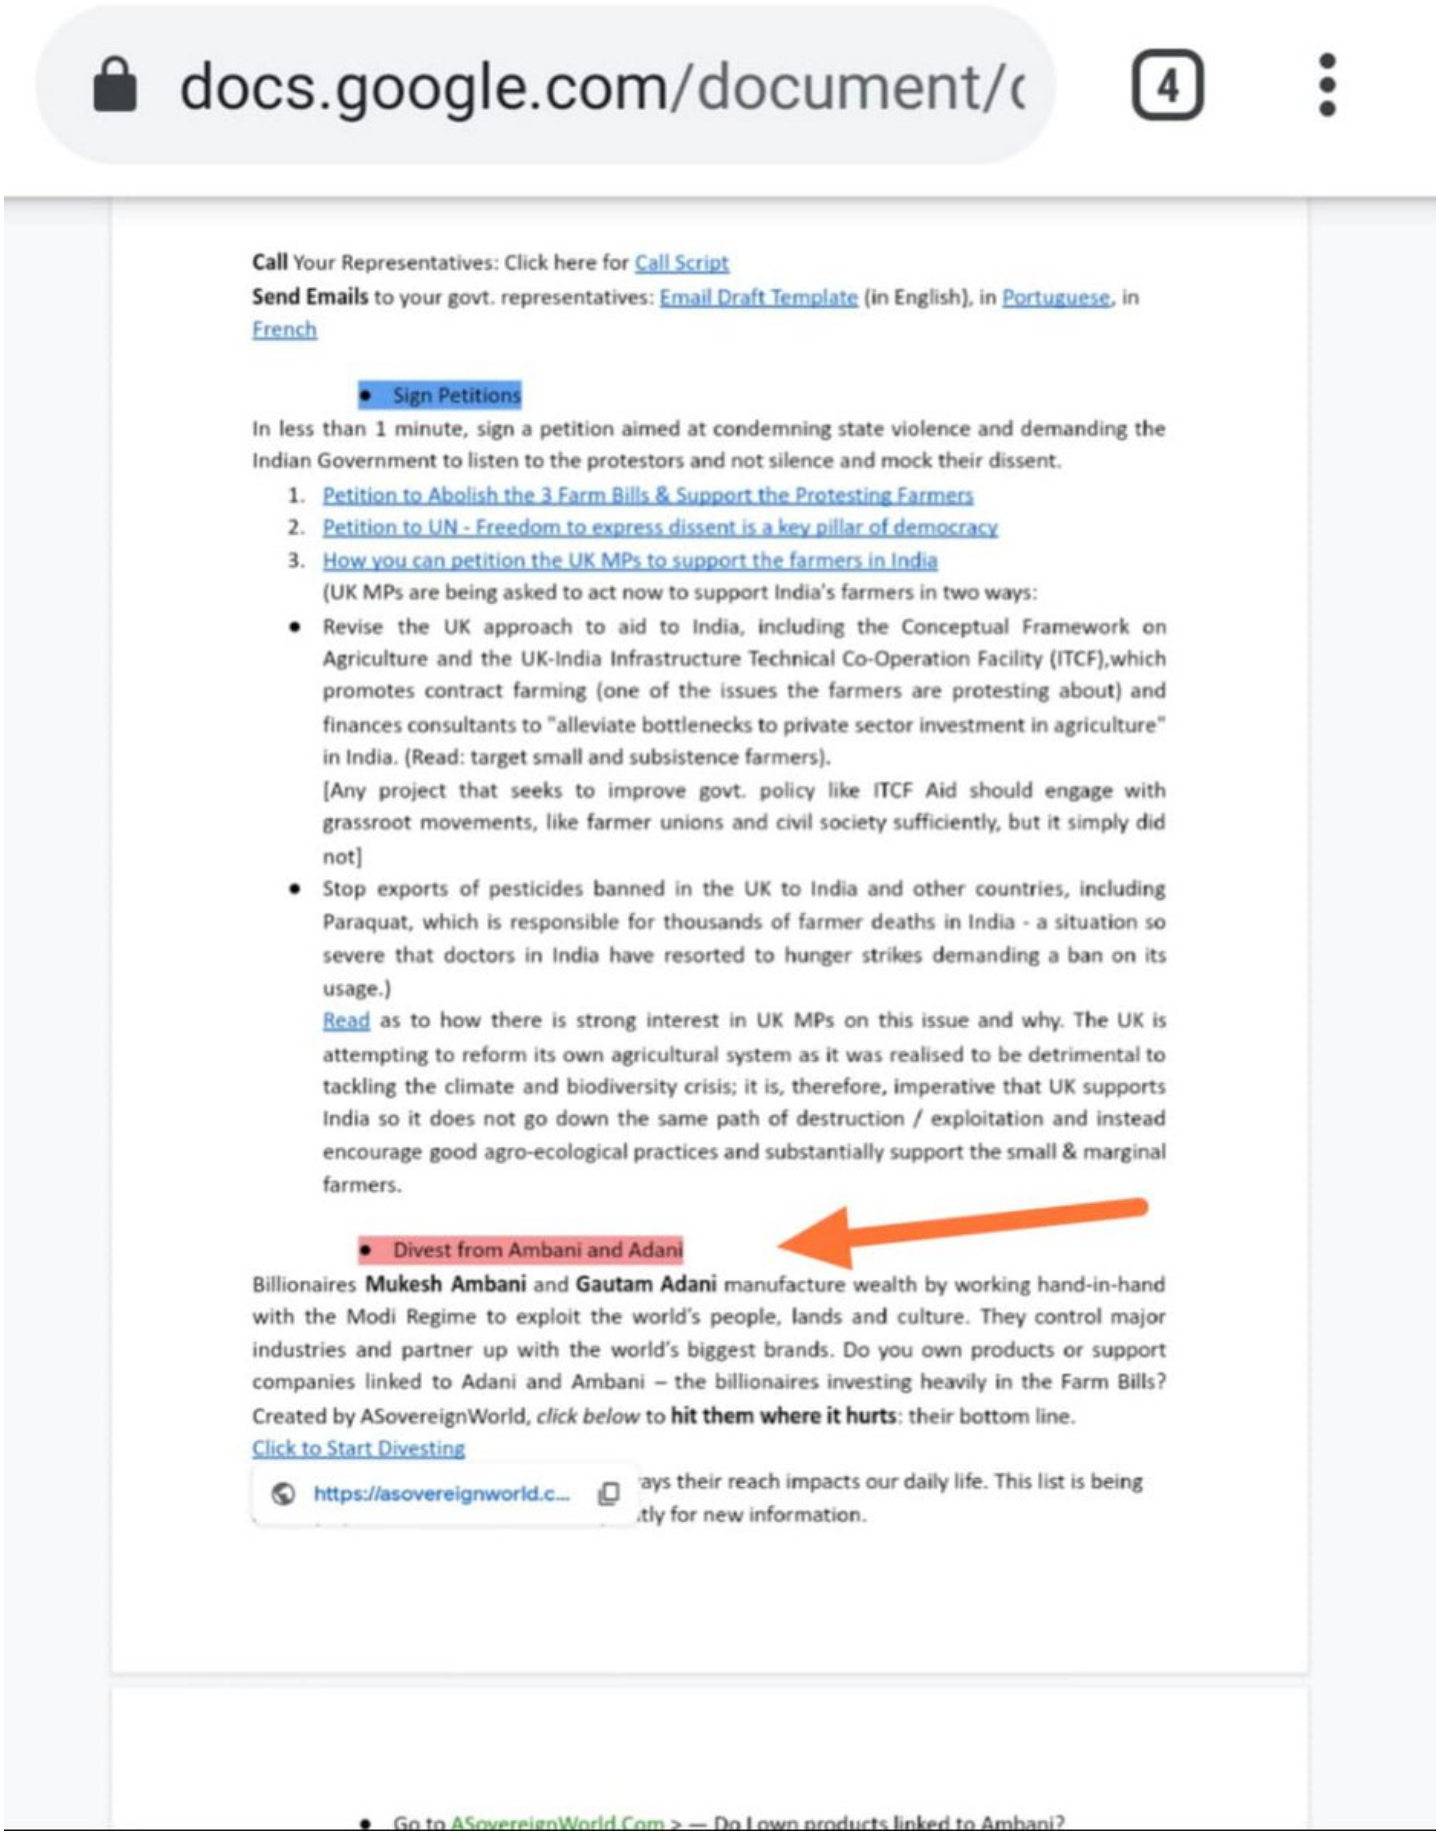

What followed in Jan is the grand alliance of International Naxals with our own. Indian opposition provided moral/logistical support to these protestors, while the Khalistanis worked to create International pressure. You would have already seen the detailed planning in the leaks.

In the other documents released by Great Thunburg, there is a clear mention of promoting to divest from Adani and Ambani. One of the major objective of the agitation is to make them weak. But wait, what has Adani done against China for him to be defamed using this campaign?

Well Gautam Adani has been rattling the Chinese for long. He has been working closely with the Australian government on Coal Mines, Railway projects etc. With the Chinese putting buisness pressure on Aus, they are turning towards India in which Adani is a major partner.

The Sydney Morning Herald

By Salvatore Babones

January 1, 2021 — 6.01am

With Australian coal stacked up off Chinese ports and almost weekly news of a new Chinese embargo, Australia's new Trade Minister, Dan Tehan, is eager to sell to India. He wants to re-open negotiations on the Australia-India Comprehensive Economic Co-operation Agreement, begun in 2011 and stalled since 2015. And given the current state of the Australian economy, time is of the essence.

The Chinese have their proxies in Australia running the organisation @/StopAdani who works day and night running propaganda campaigns against Adani since many years now. The Chinese has been putting so much hindrance in Adani projects that the Aussie govt had to write a letter.

Australia wrote letter to China to dispel misinformation against Adani's project

27 Nov 2020

Indian Cricket team was playing the first ODI match against Australia. It was the start of the 6th over when pacer Navdeep Saini was about to run to Aron Finch, when a couple of Stop Adani volunteers breached the field with prosters against Adani.

If you think that @/Stop Adani campaign is just limited to what Adani has to do with Australia, you are in for a big surprise. If you visit their Twitter, you will see them spreading propaganda for things happening in India. They are tweeting about Farms protests too.

Stop Adani @stopadani · 27 Jan

"Since returning to power, Mr Modi's Government has been marked by several convulsions. Now, in the form of farmers, he is facing a growing rebellion from India's most influential voting bloc."

The other front where Adani is rattling the Chinese is Srilanka. Due to the foreign policy mismanagement of UPA govt, Srilanka went into Chinese fold. Modi Government started fixing things with Srilanka and developed back it's influence in the country. (Detailed thread later)

Many of you may be knowing how China got to develop Hambantota port in Southern Srilanka during the UPA days. The testimony of the developed relations was when SL signed an agreement with India and Japan to develop the Colombo Eastern Corridor of Transmission, leaving out China.

INTERNATIONAL

Sri Lanka, Japan, India sign deal to develop East Container Terminal at Colombo Port

This port development was to be done through the Indian Company Adani Ports. China clearly lost influence over one of their strong holds. In turn, they funded the local labour unions to put pressure on SL govt not to work with India. SL cancelled the agreement on 1 Feb, 2021.

INDIA NEWS

Sri Lanka opts out of port deal with India

The development marks the latest twist in the troubled project to develop the East Container Terminal (ECT) of Colombo port under a trilateral agreement signed in 2019 by the governments of India, Japan and Sri Lanka.

The Nexus is so strong that all these things are happening parallely. We are at war with China on the economic and geopolitical front and it is using the Indian opposition, Khalistani, Australian NGO, Labour organization etc as a front end through the help of ISI.

What is in for these stateholders

• China - Downfall of Indian businesses resulting into bigger market for Chinese 5G and other products

• Khalistani - Reigniting the dead idea of Khalistan

• ISI - Unsettled Punjab is equal to two extra fronts for Pakistan without any cost

What we see may not be even half the picture of how big the enemy design is, but one thing for sure is that your leader is aware of everything and is acting in accordance. There are moments which may frustrate us but the need of the hour is to stand behind our leader.

End| ■■■

If you liked the analysis then you can motivate me by subscribing to my YouTube channel. I don't have content there as of now but I have planned to make short informative video related to foreign relations and put of on the channel soon. Thanks ■
