a society that still
1) thinks muslims should be shown their place
2) gets abnormal pleasure by bashing pakistan, saudi arabia, and other muslim majority countries
3) if they're a little 'woke', think islam should be reformed (oh, the irony)
4) think muslim women have zero agency

5) think muslim men oppress muslim women (um, please get a mirror and look at yourself first)
6) votes every single time based on who will teach these 'backward muslims' a lesson, even at the cost of their own rights (the wokes do it in the guise of 'development', of course)

7) STILL treats women like their own property (ironically, woke people think muslims are the cause of this)
8) rewards r@pists with parliamentary tickets
9) also elects a staggering number of terror!sts and anti-muslim incendiaries to parliament

10) oppresses people on the basis of their birth/last name
11) romanticises poverty and nationalism based on hatred of a whole community
12) shamelessly bootlicks whoever fulfills their hate fantasies;

WHAT DO YOU CALL THIS SOCIETY IF NOT ROTTEN TO THE VERY CORE?
