Not sure what the problem is. It is on YouTube.

Watched it looking for data/facts. Lots of asssertions. Lots of sneaky insinuations, but little in the nature of facts.
Still, that is not enough to discard it out of hand.
But I wonder why this is the only venue where this info

@tommy_pane 2/ is being gathered and presented?
You'll say the MSM is shutting them down.
This is not supported or supportable by the evidence. Even the basic fact I found it on Youtube, despite all your paranoia.
