Twitter Thread by Elliot Alderson

Elliot Alderson
@fs0c131y

You asked so I did it. I spent 30 min on this new Koo app. The app is leaking of the personal data of his users: email, dob, name, marital status, gender, ... https://t.co/87Et18MrOg

> Summary of my mentions this morning:
> \xab\xa0Can you test Koo?\xa0\xbb
>

*leaking the (sorry for the typo)

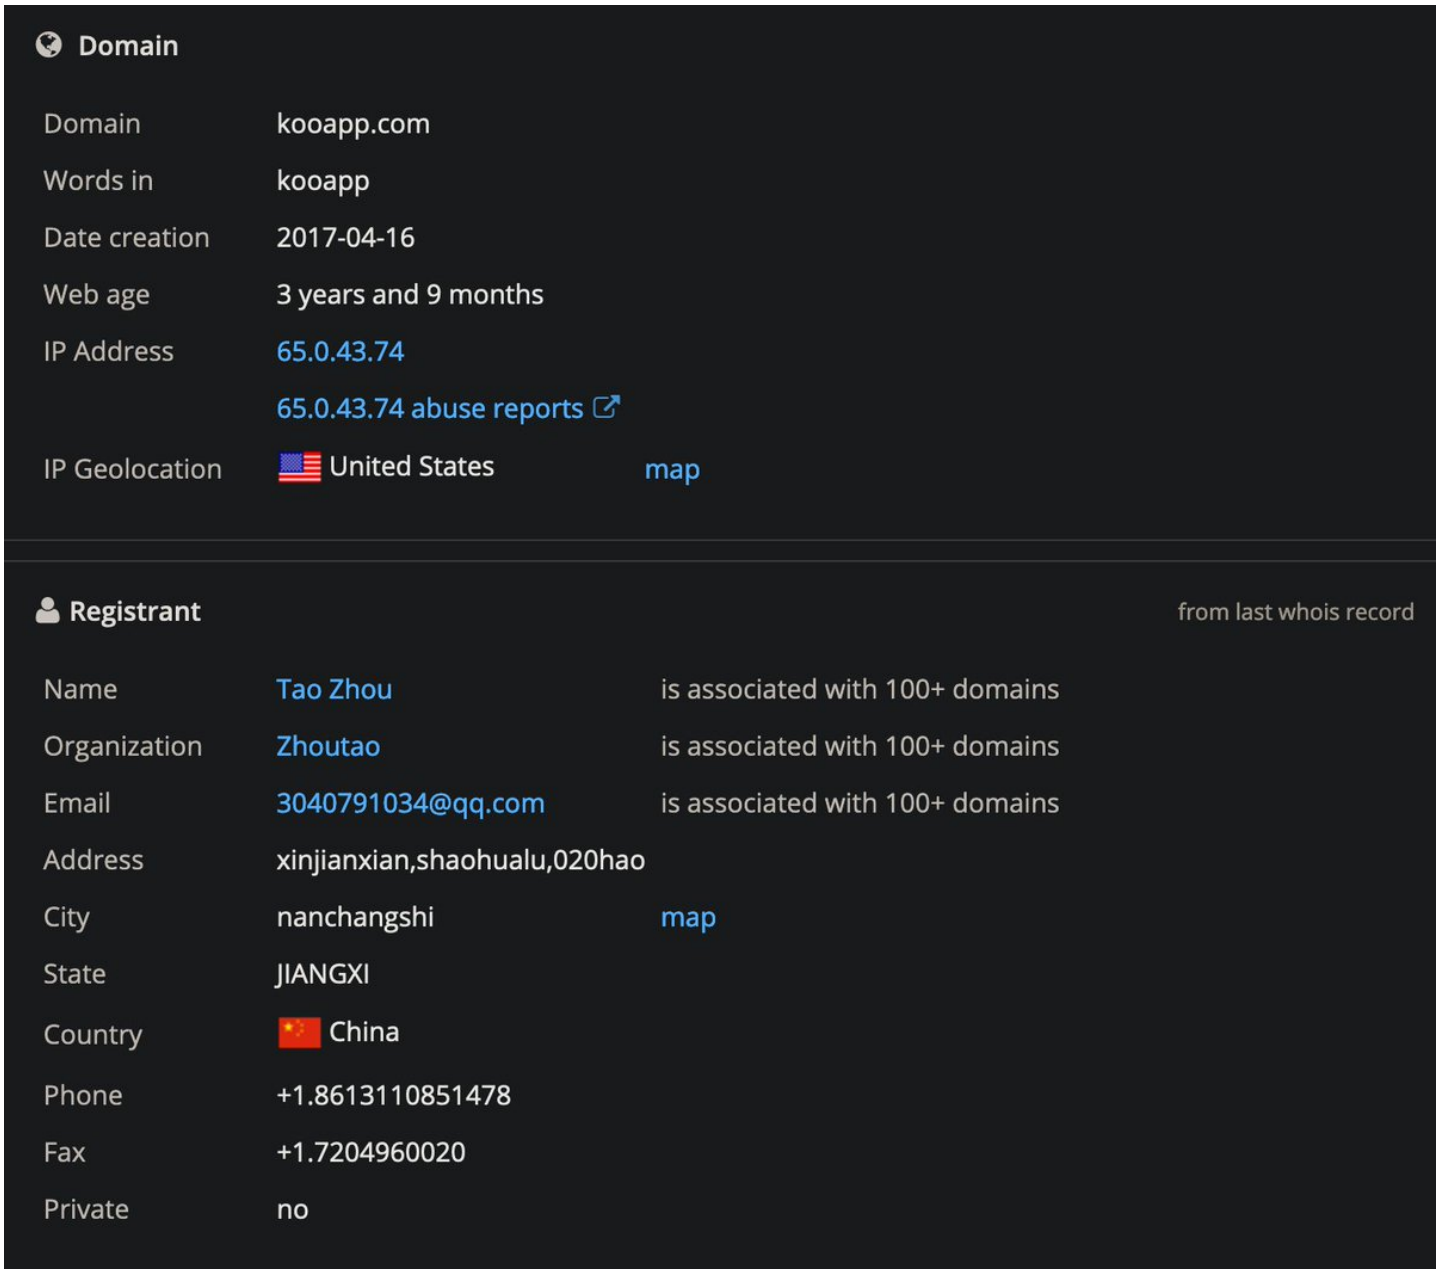

Might be useful ■ https://t.co/dgVm35XQWm

> Elliot, Koo is basically a database of Bhakts
>
> — Criminal Profiler (@Bazingaa_SC) February 10, 2021

We have the best joke ■ https://t.co/QSUlF4WVdQ

> Nothing is Koo-nfidential ! https://t.co/wLOY8Raznd

■

And it's down

It reminded me the old days, thanks for the Koo-l ride @KooAppOfficial ■

PS: Nice article on the Chinese - Koo relation https://t.co/6jUtt1dufz

Update: Koo founder commented the leak. It’s a lie. I did check this point before tweeting and it was not true https://t.co/ituNelED3c

> Some news about data leaking being spoken about unnecessarily. Please read this:
>
> The data visible is something that the user has voluntarily shown on their profile of Koo. It cannot be termed a data leak. If you visit a user profile you can see it anyway
>

@aprameya the screenshots of the 1st tweet has been done on this profile. Where do you see her dob? Her gender? Her marital status?
