Here is another BOZO from South India @Aravind_SA Whats wrong with this part of India. I thought south was culturally more stronger. Whats the thing with South and RSS. This nut job says RSS imposes sanskrit. I will prove it u are wrong. Read on

1. Insulting our scriptures have become a fad for these so called stand up comedians. I will just ask one question, have you even read the smallest scripture fully? Do u even know whats the smallest scripture? Do u atleast know what the scriptures teach us?

2. You made fun of Ramayana and mocked Jambavan and the squirrel. Idiots like you mock our scripture how can we expect anyone outside India respect our religion when our own guy pass sly remarks. You should be ashamed of yourself

3. Your latest dig on Sanskrit was awful, craving for attention. Yes Sanskrit is a divine language so whats ur pro? Why dont you learn it and understand its beauty? Why ridicule it? Even Tamil has borrowed many words from it. Ur name is also sanskrit,do u even know what it means?

4. You say that RSS imposes sanskrit. That is such a fat lie. RSS always promotes mother tongue. So where does the question of imposing arise? Read this you fool

5. Lastly, why dont you make a show mocking all the abbrahamic religions. Make fun of the Pr0pat, make fun of their beards, khatna, and how regressively they treat their women. Do you have the guts to do that. I have even come up with the title- The Last Show
