Teerthas in #Rameshwaram: Villoondi Teertham

The place where Bhagwan Ram pierced the sea with his arrow & a fresh water spring emerged in the middle of the sea! It was done to quench the thirst of Sita ji who was tired after they had returned from Lanka.

It is also one of the 64 teerthas in #Rameshwaram. Villoondi Teertham is a place where time stands still.

There is also a small Shiva Temple at the place which is very old.
