5 best free websites to learn JavaScript as a newbie

Thread below ■

■THE MOZILLA JAVASCRIPT GUIDE

I call this the "Bible" of JavaScript. This is by far the most comprehensive tutorial you can anywhere on JavaScript.

Every web developer must check out this site at some point because it's in-depth.

■W3SCHOOLS

W3Schools is a great place to properly grasp the basics of JS, thanks to it's simplified and organized tutorials.

The platform organizes it's lessons sequentially to facilitate learning, it also provides exercises at the end of each sections
