Thrikkur Mahadeva Kshetram
#Thrissur
#Keralatemples ■

Thrikkur Mahadeva Temple is located in Thrissur District of Kerala. Garbagriham is within a cave on a hillock. Paramashiva is Swayambhoo here. Upadevas are Parvathi Devi and Ganapathi.

Sthala Puranam says that■

Prathista of Vigraham was done by Agni Deva. It is also believed that in this temple, Agni resides with Paramashiva. Therefore Ezhunallath is not done on rainy days or cloudy overcast situations.

It is also believed that this temple was first found by a cowherd. A man had been

searching for his cow that went grazing and thus came to this cave. He found the cow in the cave along with the Shivalingam. He immediately informed this to a Namboothiri who started doing poojas. Trikkur Mahadeva Kshetram gives relief to those who are suffering from Asthma and

Other breathing difficulties. Kayar Vazhipaadu(The Rope Offering) is offered to Paramshiva. Kayar Vazhipadu is said to have divine powers to heal Asthma. Dhaara is also very important here.

Om Nama Shivaya
