Mr. Maunmohan, Where were you?

Where were you Mr Maunmohan when your colleagues did Character Assassination of entire Scientific Community?

Where were you when medical professionals were essentially being called frauds by your party and its extended ecosystem?

Congress leaders question ‘modification’ of protocols to approve Covaxin

?Special Correspondent

NEW DELHI 03 JANUARY 2021 12:37 IST
UPDATED: 03 JANUARY 2021 22:58 IST

two vaccines in early January 2021. It should have been a moment of celebration because one vaccine #Covaxin was completely indegenously developed and manufactured while the other vaccine #Covishield was also locally manufactured.

What followed though was one of the most

shameful chapters in modern Indian political discourse.
No Patriot will forget the campaign done by top Congress leaders who went on to shame Bharat Biotech's Covaxin in front of the world.

Where were you Mr Maunmohan at that time when your friendly media discredited Covaxin

which was developed by one of the most reputed vaccine manufacturers in the world and approved by well-regarded experts.
Why didn't call your colleagues and tell, don't mock the scientists or politicise the issue..?
Manish Tewari, minister in your cabinet, tweeted on January 13

just three days before the vaccination process was launched in the country, “NDA/BJP making Guinea pigs out of Indians”.
Where were you Mr Maunmohan when Tiwari did character assassination on Scientists who worked Day & Night to produce a Vaccine for Bharat & World over.

‘Indians are not guinea pigs’: Congress leader Manish Tewari raises questions over efficacy of Covaxin

The Hyderabad-based pharmaceutical firm is developing Covaxin in collaboration with the Indian Council of Medical Research (ICMR).

OK, let us consider you were busy with something more serious than this (which never is) & hence couldn't give guidance to Manish.....But where were you Mr Maunmohan when Anand Sharma, Jairam Ramesh and Shashi Tharoor, Milind Deora ,all ministers in your cabinet started

After Congress' Jairam & Tharoor, now Milind Deora questions 'speedy' approval for Covaxin

Milind Deora joins Shashi Tharoor and Jairam Ramesh in questioning 'premature approval' for Bharat Biotech's Covaxin even though the Congress has officially welcomed the vaccine.

character assassination of Scientific Community?
As if this was not enough, Bhupesh Baghel, CM of your Congress ruled Chhattisgarh, went a step further, he incited his own people against a vaccine developed by his own countrymen and his health minister, TS Singh Deo, issued a

statement that Chattisgarh government would not allow the use of Covaxin in the state.
Where were you Mr Maunmohan when a CM & HM of your party ruled state caste apprehensions on Covaxin which was developed on a tried & tested & highly successful platform?
Mr Maunmohan, like

'Not confident as of now': Chhattisgarh health minister TS Singh Deo opposes use of Covaxin

'Not confident as of now': Chhattisgarh health minister TS Singh Deo opposes use of Covaxin

Times Now Digital
Updated Jan 10, 2021 | 12:11 IST

When asked whether Covaxin would be administered to people if provided to the state, the TS Singh Deo said he is 'not confident as of now to tell people to accept this vaccine.'

Poor Bengaluru Laborer Earned Rs. 11,600,000 On His Cell Phone!

those 10 years where you watched the Great Indian Loot, this time also you kept silent, the result is 1000s of doses are lying unused in Chattisgarh while it battles the second wave and lags behind the national average in vaccination.
What's the result because of your treachery

Mr Maunmohan?
People hesitated to take vaccine, especially in January and February, and states ruled by the Congress are the laggards in vaccinating even the most vulnerable & healthcare and frontline workers and those above age of 60 years.
Why didn't you advise your Congress

govts to speed up vaccination process Mr Maunmohan?
Was the spirit of constructive cooperation that you offered to the government unavailable when your own senior colleagues in the Congress and those leading the states were indulging in the crassest form of low-level politics?

And what about Mr Rahul Gandhi Maunmohanji, Why didn't you ask the eternal youth leader to take Vaccine in public & dispense the myth surrounding vaccines?
Are you still too afraid to speak with him after that Page Tearing episode?

Further in your letter, you write India should

allow import of all vaccines approved by internationally reputed regulators like those in the EU and US without insisting on local bridging trials..
Mr Maunmohan, you are a Sardar, have some respect for the turban you wear.
Where were you when Indian drug regulator had approved

emergency use of Covaxin after following due process, and the entire Congress party including paid media of yours went to war against the drug regulator, questioning their knowledge and professionalism.
Was it not discouraging the hard working scientists & researchers?

Why didn't you speak up then Mr Maunmohan?
Further Mr Maunmohan, why are you promoting foreign developed vaccines without even a modicum of trial in India? At the least, Covaxin had been tested in multiple phases in India.
When the Indian Council of Medical Research said

Covaxin is Safe & Immunogenic, you & your colleagues chastised the nearly 70 year old organisation & on the other hand a foreign regulator’s words are blindly followed, without any trail in India, Why? Because a foreign regulator is more trust worthy than an Indian one?
It is

this mentality of the Congress that prevented any world class start-up or institution or process to develop in India during the 60 years of Congress rule.
Tell me Mr Maunmohan, how many AIIMS you gave during your 10 year rule?
Mr. Maunmohan Singh, you and your party were jealous

on one man and that Modi's already high popularity will cross that of Everest's & for that reason you conspired to bring down the country itself.

SHAME ON YOU Maunmohan, even in 2521, you will be the worst PM India ever had, that’s the legacy you leave behind.
