#ModiEra 2.0
@Rajat_Hind

■CONG, ISI CHINA & US - all wants to bring down @narendramodi ji's govt.

It's all planned by Commie Cong & ITS ALLIANCE they are creating fear n filling up beds,many of whom could have been easily treated at home. So first they filled hospitals, next they stocks n hordes 1/n

medicines injections, thereby creating an artificial shortage of beds, Oxygen, and Injections. Indian media which feed on TRP n most are sellouts starts projecting as if it's doomsday adding fuel to fire and create more panic among masses.
2/n

Thus we c panic calls and SOS messages all over SM. Many toolkits activated also requesting oxygen, injections, beds. 95% of these are fake created by the “Social Media Army” of Congress. (Remember a few months back RaGa said he is recruiting 2 lac SM volenteers.) 3/n

Call me insensitive but just look at d data. Mortality rate of 1.18% of death. More than 98.80% of patients are returning back home healthy.

Pls do a random nonscientific check. Called few people and hospitals n u will be surprised, d beds are filled with
4/n

many who could have been easily treated at home. Modus operandi first filled hospitals, stocked injections,n then created an artificial shortage of beds, Injections n then add O2 to it.

Ever since 2014 n even in 2019, it is clear 2 left liberal lobby that Hindus
5/n

are now united more then ever before n after Ram temple, it has galvanised further, they had to create division among us. If the plan succeedes divided Hindus will pay huge dividend to UPA in UP 2022 (thus the fake farmers protest which has no logic).
6/n

Lobby beleives once UP is breached , LS2024 would be a cakewalk.

Pls remember,Left liberal lobby did the experiment in US with Trump; created panic with a false and magnified number of Covid infection reports n also anarchy in the name of black lives matters.
7/n

Once Biden won it's all silent as if the USA got rid of Covid. Another well-established fact is Trump was against the Pharma lobby. So while Trump was in office and said the vaccine is on its way, no pharma company came forward but as soon as
8/n

Trump was left White House many announced vaccines, and not only that, they funded Biden inauguration to d tune of $100 millions.

So, India we are at war, a war to save civilization. Rising India is a huge threat to businesses, politicians, lobbies, and cabal across globe
9/n

(thus US refused to give raw materials for vaccines to India n German Chancellor ranting) we are not just fighting a pandemic that is forced upon us but also those who don’t want to see India rise as that would be a threat to their existence.
10/n

Lets stand united as one nation and with the Modi government. Remember we have internal n external enemies to fight.We need to take our responsibility as @narendramodi ji alone can’t do everything. Trump was the experiment now the target is Modi ji. Remember wat NaMo said
11/n

About Saheenbag, which was an experiment n fake #FarmersProtest is the project we are seeing now.Had it been an armed war, our military is more them enough to win but proxy war needs support n commitment of every patriotic Indian.
12/n

Stand with @BJP4India and more importantly with @narendramodi ji to keep Bharat safe and alive. Remember he stands between d lobby who wants to end idea of Bharat and us like a firewall.
