The pain of being @narendramodi - India!

A small transformation but a big bang impact - the essence of KAIZEN! 1/7

India needs a strong Government. Modi does not matter. I can go back & open a tea stall. But, the nation can't suffer anymore.

— Narendra Modi ([@narendramodi](#)) [April 29, 2014](#)

Our Nation with all variety, exploitation & value destroyers, socio-economy, geopolitical neighbours give tough for a leader and with no other leader facing big problem in world daily. 2/7

We know the meaning of the word “Kaizen” and those who practice this or does have a considerable knowledge would relate what [@narendramodi](#) is facing in leading the nation to unparalleled change. 3/7

He has been always standing in front when it comes to bringing the changes through multiple initiatives & programmes. 4/7

One thing as a common man is that we need an unpolitical environment, more of value. There is an Idiom “step into (someone's) shoes” which we need to factor. We know your Pain [@narendramodi](#) and we know what are you going through in bringing the change throughout the country. 5/7

You are the master who's here to lead the country with rightfully engaging and attacking the redundant political mass! 6/7
