To all RWs from WB -

In case TMC wins elections, Plz immediately delete your social media accounts & erase your all digital footprints in case u have expressed political opinions. TMC cadre will go on rampage against you. Don't put ur & family's life at risk. Take care.

During 2019 elections & after that as well, many BJP workers, RSS Swayansevaks got murdered. But inspite of that, since 2021 Assembly Elections were nearby, they had exercised restraint. If they win on 2nd may, then they don't have anything to lose till 2026.

There is 2024 loksabha elections. But personally Mamata doesn't have anything to lose in 2024.

IMO, Chances of Mamata coming back are less. But just putting a disclaimer.
