The 10th Apple effect

A hunter once lost his way deep inside the jungle while chasing a deer. He used all his navigation skills but neither did he find any way out of the jungle nor could he find any food to eat for 8 days at a stretch.

@anexcommie

He started feeling so damn hungry that he could eat an entire elephant at one go. Disappointed, he lost all hope. And that is exactly when an apple tree caught his sight. He collected a dozen apples to feed him for the rest of his search. @shreekanth2020 @HelloNNewman

As he ate the 1st apple, his joy knew no bounds and he just couldn't stop feeling grateful and blessed. He thanked life. He thanked God. He could not believe his luck when he ate the 1st apple but he was less grateful while having the 2nd apple and even lesser grateful...

...when he had the 5th apple. Somehow, with each passing apple, the hunger still kept on increasing and the joy kept on reducing drastically. He just could not enjoy the 10th apple.

Why? He had already taken for granted the gift of having found...
