@RexChapman

Marsha Blackburn, Mitch McConnell, and so many more of these people serve in states DECIMATED by what the Sackler's and Purdue Pharma did. When I speak to groups many of these people have no idea people like Mitch and Marsha were/are the boogeymen in the whole thing.

The GOP is being being funded by big Pharma, the Sackler's, etc. ...while kids in these red states are dying hand over fist from opioids. What a world.
