**If anyone believes tht Cong is out of pic in Indian polity, cos they have no presence in many states, then you're being naive.**

**A party, which has been in the corridor of powers for more than 70 yrs, cannot be disposed off in mere yrs.**

**@anexcommie @Kishoreciyer1 @shreekanth2020**

Today's #CongressToolKit proves my belief, tht Cong has other things in mind. If they cannot be King, they wanna be Kingmaker.

If they cannot be part of government, they merely contest to cut into votebank of other parties (which is almost always BJP).

[@rspcharya](#)

Congress has, in all these yrs created coteries tht has its tentacles in almost all fields & departments.

Since the time India got independence, Congress has been setting one narrative after another. And ppl have been falling for it, year after year.

[@HelloNNewman @rspcharya](#)

be it making ppl believe tht it was efforts of MKG and erstwhile Congress tht India got independence. Or tht it's MKG, Nehru and after him, his family is wht makes Congress.

Be it calling Indira is India or Sonia as 'mother of India'.

[@JumbuTweeple](#)

Does it really surprise us, tht they have yet again devised #toolkit to set a narrative?

But credit to them where it's due, they identified Modiji as a potential thorn on their side as early as 2002. And there again they set a narrative.

@SriRamya21 @RajeAiyer

Up to you, whether u choose to believe or not, but they hv indeed identified Modiji as someone who's standing between a Hindu and their agenda of suppressing collective voices.

Don't believe me, check the highlighted section in the image.

**V. Amplify work of frontal Congress organizations:** Indian Youth Congress and other frontal organizations can be shown as taking the lead in helping people. Contrast their work with apathy and inertia of the government as well as BJP's organizations

- a. Create a social media team to track every request for help and contact them on DMs or directly.
- b. Once contact is established, request them to send a social media post again, this time tagging the IYC social media handle and its leading office bearers
- c. Collaborate in advance with friendly journalists on social media to immediately amplify these messages
- d. Liaise with local ground level political leaders in cities to keep some beds and other facilities blocked in friendly hospitals, to be released only on our request
- e. Respond to help only if a person tags the IYC handle
- f. Calls for help from journalists, media professionals and other influencers must get priority
- g. Contrast the work done by IYC with lack of work done by BJP organisations.

**VI. Prime Minister Modi's image:** The approval ratings of Prime Minister Modi have been high and have not dipped despite crisis and mismanagement. This is an opportunity to destroy his image and erode his popularity. Towards this end:

- a. Use resources created on social media to question Modi's incompetence from handles which look like Modi or BJP supporters.
- b. International media coverage by foreign correspondents in India can be tailored to exclusively focus on Modi and his mismanagement. Liaise with foreign journalists and Indian Oped writers in foreign publications and brief them on talking points.
- c. Use of dramatic pictures of funerals and dead bodies, which is already being done by foreign media. Such journalists can be facilitated by our local cadre in various districts to get the right image and then their reporting may be magnified.
- d. The envelope can be pushed to start using demeaning phrases for Modi in intellectual discourse by friendly intellectuals and opinion makers so that they have greater acceptability when used politically.
- e. Use the phrase 'Indian strain' whenever talking of the new mutant. Social Media volunteers may call it 'Modi strain'.

While I have been a silent observer to now, this is a tipping point and time to take stand.
