## How to get your first \$2,000 in the next 2 months

## Even if you don't have a skill or service to sell

#### A thread:

I feel you

You don't know anything about this make money online

You don't have any concrete skills

You have no idea what to sell, who to sell, etc.

Well, I was in your position last year

I didn't know anything about anything and was completely overwhelmed by all the information out there

So many threads

So many courses

But none of them tell the basics

Let's solve all your problems, here

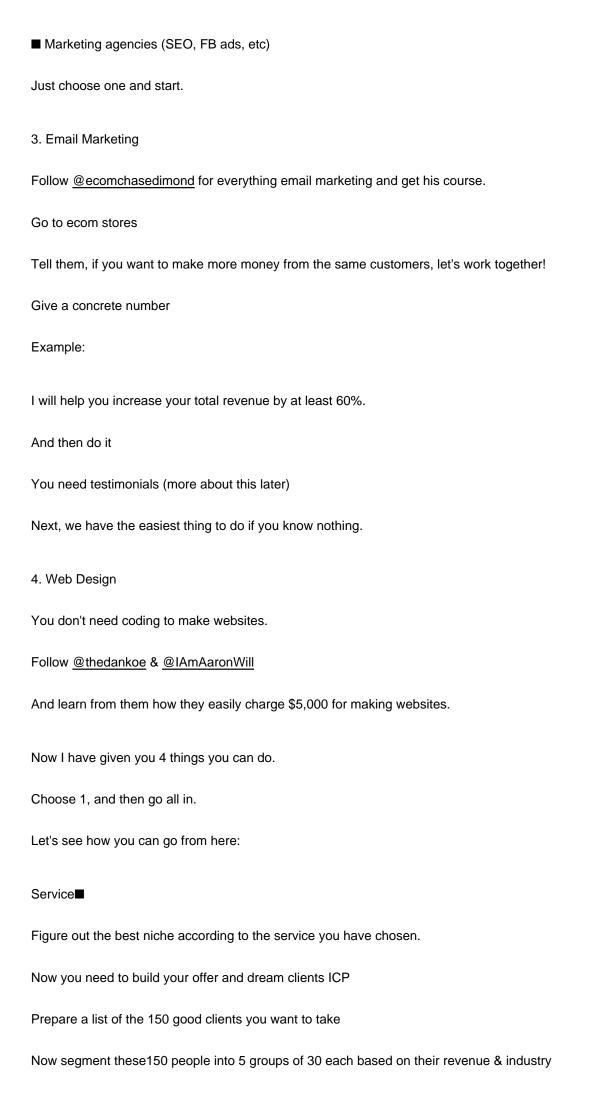

No matter how many problems you may have

You will solve all of them and get your first client in the next 60 days

STEP 1:

What skills are required to make money online?
1. How to use a computer 2. Copywriting 3. Sales
That's it for now.
You can learn everything else in less than 1 week, after that, it's all about experience and expertise.
Now how do you learn copywriting and sales?
<ol> <li>By practising.</li> <li>And by going over the resources that I recommend at the end of this thread.</li> </ol>
Keep reading.
Now that we have the skills part figured out, we need to figure out what service to sell?
You can sell anything from Graphic Design to Cold outreach to FB ads lead generation.
But we will go over each one, one by one.
1. Facebook ads
You can sell this to local businesses the most easily.
Say HVAC, chiropractors, etc.
But you can also sell this to digital-based agencies like those who sell web design, branding, social media marketing etc.
In the end, you can sell this to shopify stores but it's incredibly competitive out there for that niche.
2. Cold Outreach
Here you will do outreach (cold email, Linkedin, cold calling)
from your client's name and help them get on calls with their idea; clients.
You can sell this to:
<ul> <li>■ Mobile app dev companies</li> <li>■ Web dev agencies</li> <li>■ CRM consultants</li> <li>■ Integration consultants</li> </ul>

■ No code agencies

Next, we get a simple landing page on carrd And a domain from google domains. Here's what you don't need: ■ A logo **■** LLC Think about these 2 after you close your first deal, not before that. Now you need to do outreach. But we have a systematic approach to that also. You first figure out where your niche spends their time... Here's a small cheat sheet: Local Businesses ■ Facebook ads or cold calling Follow @immarkwilliam and learn how he has scaled his FB ads agency so well Digital-based business ■ Cold email and/or LinkedIn Outreach Follow @linkedin\_king and learn everything about LinkedIn outreach Want to learn cold email? Get cold email mastery by @blackhatwizardd Now for your first case study or testimonial You may need to work for free for some time. And that's completely good. You need to have proof that what you're selling works and people will benefit from it. So don't shy away from working for free initially. Now, how do you decrease the time you work for free and get paid fast? Instead of pitching "I will work with you for 2 months for free in exchange of a case study" (btw the above offer is really good)

You can say something like "I'll give you 2 qualified leads for free"
Now you send cold emails, do LinkedIn outreach
Or if you have to do cold calling, learn from <u>@sean0to10k</u>
And get your first \$2k-\$3k client.
You'll also need to get on sales calls to close clients
_earn to handle objections from <u>@ROGUEWEALTH</u> & <u>@alexh459</u>
You don't need a sales script.
Just ask them 5-8 questions to make sure they are the right fit for your service, and then explain your service and show results & testimonials you got while working for free.
f you actually want to scale your agency past 2-3 clients you need 2 things:
1. Good systems & automations
Get Outbound on Autopilot from <u>@NickAbraham12</u>
2. A really good team
_earn from <u>@THETYFRANKEL</u>
Now, this is the overview of how to get your first client.
laid down everything you need to get your first client
And if you need a step-by-step Roadmap of starting your own agency and scaling it to \$25k+
