We're seeing lots these days. John Pierce was a lawyer for Giuliani & Rittenhouse. Pierce now reps Proud Boys. He's said he models himself after Trump. Look at texts Pierce sent to his 3 kids' mom.

2/4 According to court filings, Pierce's kids did not want to see him for a time. In addition, his law firm has been sued almost 15 times. Pierce also has had two domestic violence restraining orders against him. And he is accused of withholding $63,000 meant for an ex-client...

3/4 Pierce lost a $2.5 million a year job after a few months; he physically assaulted a co-worker. Pierce basically pilfered $2.5 million from a payday lender in Queens NY in February 2020. He owed over $1 million in taxes and he has conceded that he is immature.

4/4 Is Pierce's saying that he "never grew up" an excuse for his behavior? Lets take a look at details on Pierce's behavior, which also covers his ex-partner David Hecht of Hecht Partners, who another partner said would "toss dogs off of roofs" for Pierce https://t.co/EqgcFY3EoG
