National President of the IMA Dr. J. A. Jayalal had created a controversy earlier after he said that he wanted to use hospitals to convert "Hindus to Xtianity."

Kindly connect the dots of all the tweets.

#ISupportBabaRamdev

In the battle of [#Allopathy](#), [#Ayurveda](#) with International Pharma Mafia, lies Baba Ramdev in between.

Dr Jayalal uses the platform of the IMA to share the "love of Jesus Christ" and be a "living witness to God and encourage young medical students and doctors to receive Jesus as their personal saviour".

#ShameOnIMA

He also believes that the pandemic has provided "the urgent need of the proclamation of the Gospel to people who are suffering from the virus".

As if this wasn't enough, he accused the Gol of advancing Hindutva by promoting Ayurveda and the Sanskrit language.

#BabaRamdev

Why target .@yogrishiramdev?

The agents of the international pharmaceutical mafia, the IMA, are doing their darndest. They are trying their best to invoke the Epidemics Act .

Is it because research papers were published by Acharya Balkrishna on 2-DG drug by DRDO in collaboration with Dr Reddy's Lab?

Will this affect the supply chain of Remdesivir injections/oxygen/plasma supply?

#CongressToolKit

Does the supply chain consist of Pharma companies, agents (all forms in the hospitals), in collaboration with the politicians?

Is it, that Ayurved and not Baba Ramdev is the real target of the Pharma Mafia and its Indian agents?

#I_SUPPORT_RAMDEV
