Although, the Congress is out of Power from 7 years and it should remain so forever but sometimes I really wonder, "Is out of Power Congress more dangerous to our Nation or the Congress in Power?"

- Rahul Gandhi visited JNU in Feb 2016 to support those so called students who had shouted, " Bharat tere Tukde Honge, Insha Allah, Insha Allah".

- Salman Khurshid spitted venom against his own PM and praised Pak PM Nawaz Sharif for fighting terrorism in most effective way...

..when he gave lecture at Jinnah Institute in Islamabad in Nov 2015. What was more hurtful for Indians was that he didn't say a single word on terrorism India had been facing in Kashmir & instead gave an impression as if Pak is ready for negotiation but India under Modi is not.

- Mani Shankar Ayyar in the most shameful way asked Pakistan to remove India's PM Modi, if talks between two nations to be resumed, in a discussion on a Media Channel.
- Congress Party was said to have signed an MoU with Chinese Communist Party in 2008 during UPA rule.

- Rahul Gandhi was busy meeting with Chinese Diplomats at the same time when Indian forces were at a standoff with Chinese Army in Doklam.

- He repeatedly undermined India's position favouring China's during Galwan Clashes. What was he trying to do?

RAHUL GANDHI :- FACE OF CHINA

- Pakistan even quoted our so called opposition leader Rahul Gandhi's comments on Kashmir at the US where he demanded proof of India's Surgical Strike on Pakistan. His statements have made a mockery of the Indian Political system & India as a nation throughout the world time & again

And he still dreams of becoming the PM of the very nation he disrespects by his acts. How could someone be so dumb?

- Allegedly, Congress lobby in the US is inducing Biden govt to intervene in govt's functioning in India.
Does Rahul Gandhi want America to attack India the way...

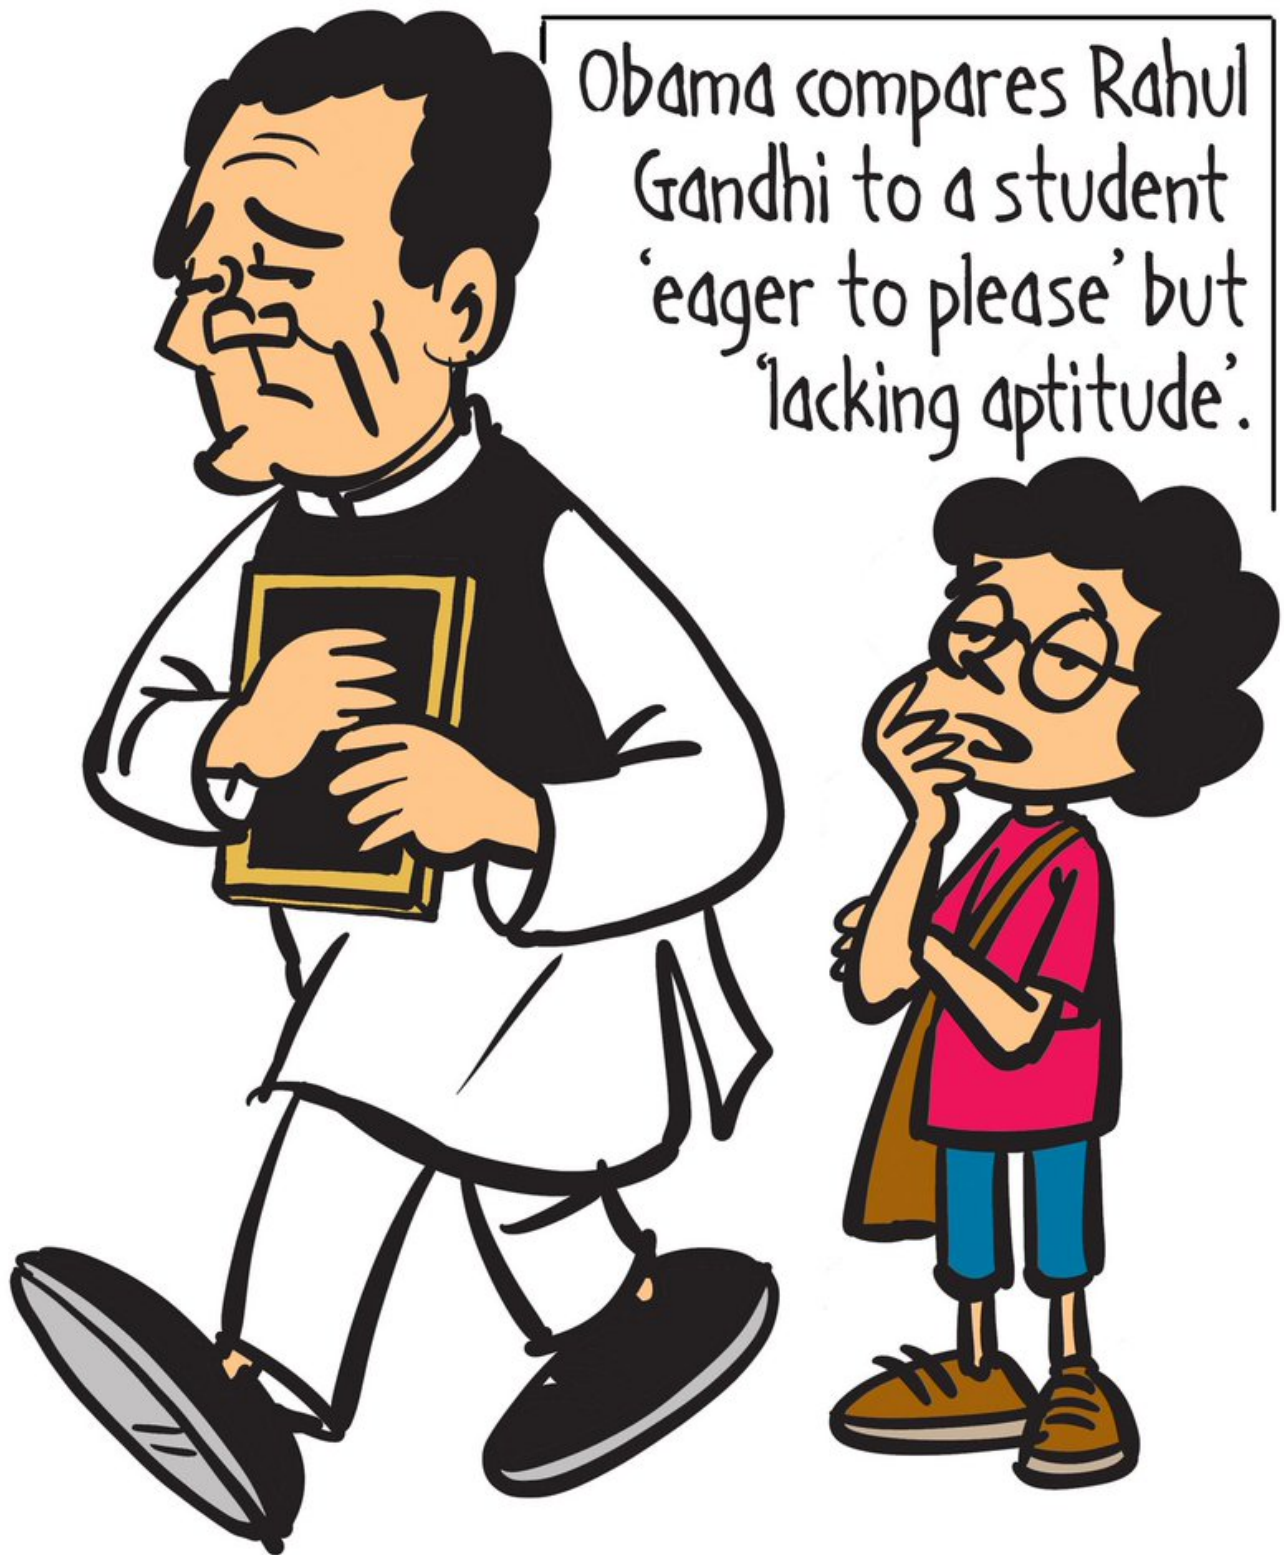

...they attacked Iraq and Afghanistan? Being an MP, he can discuss his issues in the Parliament but no, we can't even find him in the Parliament sessions. Did people elect him in his constituency to demand US intervention in India's internal affairs.

- In his act of desperation to uproot Modi govt, Rahul Gandhi not only caused huge embarrassment to India, but hurt every Indian's pride when he demanded US to interfere in India's internal affairs in the name of freedom of speech.

- In a recent video conference with US diplomat Nicholas Burns, Rahul Gandhi said, "I don't hear anything from the US about what's happening in India". I wonder what he wants to hear?
He didn't even hesitate to insinuate the "wholesome capture of institutions" in India by ruling BJP.

Scored 1/10 Janpath?

We are all witnessing a gigantic and malicious Anti-India propaganda within India and outside India and Congress is the biggest participant in it.

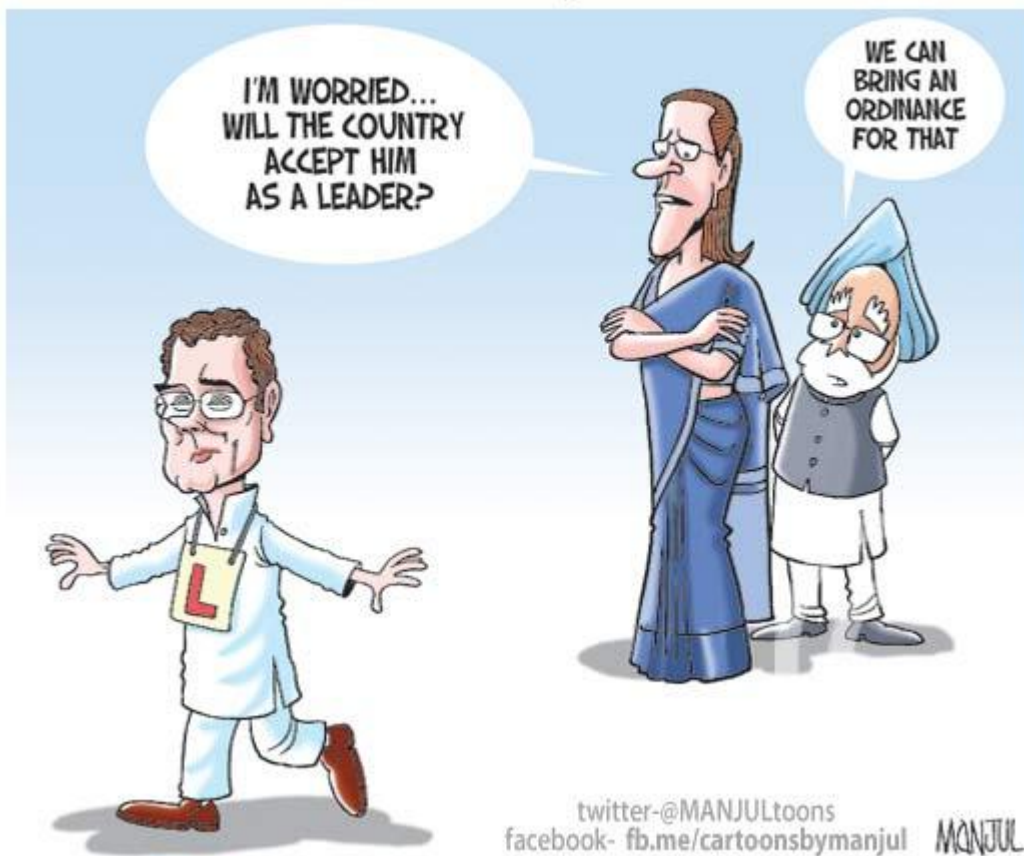

Recent #Toolkit incident is one such example. On going #FarmerProtests r less of farmers protests and more of a #Khalistan movement..

...that has been exposed but who is at the centre stage of supporting them, ofcourse Congress.

There is no end to the list. Every day Rahul Gandhi and Congress stoop to a new low and that's pathetic. But with every act of Congress, its anti-national face is being exposed.

The common citizen of India is right in his mind to lose all respect to this party. But this face of this party is not new, it was always there but in hiding. It's only now that Rahul Gandhi is doing a wonderful job in bringing the real face of its party in the open.

POLITICKLE by MANJUL

For dat he must be credited.

India must defeat the ideology by any political party, which seek foreign intervention to subvert India's national interest. Common citizen of India is angry & wants to know dat can such parties & people be tried for compromising the nation's sovereignty.
