A Thread of "Bots on Twitter"■

Bots make your life easier. On Twitter, there are many.

I have compiled them below ■

1/12
Add captions to a video - '@HeadlinerClip'

Save Threads and Tweets - '@readwiseio'

Just reply to the tweet, with message, “@readwiseio save” (without the quotes). If you don't want your reply to show up in the Twitter feed, you can use DM instead – just DM the tweet to @readwiseio.

> (2/n) Readwise automatically imports your highlights from Kindle, Medium, Instapaper, Pocket etc. There is a way to import highlights from physical books too. You can also directly save tweets or tweetstorms.

Read long Threads more easily -'@threadreaderapp' or '@PingThread'

https://t.co/85AlXubJvM

I'm @ThreadReaderApp a Twitter bot here to help you read threads more easily. To trigger me, you just have to reply to (or quote) any tweet of the thread you want to unroll and mention me with the "unroll" keyword and I'll send you a link back on Twitter \U0001f600

So you have found an amazing thread, want to read it peacefully and add it on the threads app?
Here is how!

(A thread is a chain of more than two tweets.)

PS: Just make sure its either on the first or the last tweet of the thread. pic.twitter.com/CJamyaoWdq

Download any video or GIF from twitter - '@GetVideoBot' , '@SendVidBot', '@SaveMyVideo' or '@this_vid'

https://t.co/lSs8DK2qNG

Is there a \U0001f60e cool video or gif you want to download off twitter?
Just mention me @GetVideoBot and i'll reply with the download link in a few minutes.
Simple right? \U0001f917

Don't forget to follow me to always get notified.#SaturdayMotivation

Bots that read alt texts from images for you - '@get_altText' & '@ImageAltText'. The latter is by @nahratzah

https://t.co/P5aMQQ5iSY

Mention me in a tweet with an image or in a reply to a tweet with an image and I will read that image's alt text for you. Alt texts make your tweets more accessible by providing (hidden) image descriptions - here's the official twitter tutorial for that: https://t.co/QIIUJ32bBq

Get reminder of any tweet whenever you want - '@RemindMe_OfThis'
