GO FROM 0-10K A MONTH

AS A SALES CLOSER

[THREAD]

The service:

You're going to contact SaaS companies and offer to help them DOUBLE their closing rate on calls

These companies are typically tech-minded and tend to have <15% closing rates (from those I have spoken to)

Why SaaS companies?

They tend to have:

- Higher priced services/product
- Quicker delivery to customer
- Lower costs
- Recurring payments
- Ability to scale quicker

Absolutely make sense for them to pay someone 5K/month to double their closing rate

Now you need leads to contact:

I use:
