@jigspatel1988 Any sell strategy gives loss only in trending days however this short strangle is better one among other short ideas. I am doing this from months, very good results in long run. This require more attention, instead of this I found another good bet, that gives daily 1% returns

@riturajsaxena0 @jigspatel1988 I sold monthly nifty 15500pe and 16000ce, just be and relax. Required capital 1L around, expected profit 1000 per day avg. May be in 3rd week, we require change strikes.
