1. “It takes a Village to raise a child” – African proverb.

This is relevant for many of us in todays’ world who are from the non-vishesh samuday and have both parents working to make a living to raise their children.

2. But How does the Goebelessian Left gobble truth and culture? To understand this better let me take you to God’s own country.. I am sure many of you wonder why Kerala is so easily falling prey to ISIS recruitment. The reasons are factually simple.

3. It is the LEFT ECOSYSTEM and their SWIFTNESS in HIDING their FLAWS. Please allow me to take you back in time to understand the current events in Kerala and where the decay set in.

4. The current set of citizens “parents” in the age group of 40 to 60 have spent their younger years in Socialist Kerala. Here poverty of early 70s to 80s the state was averted by the welfare state. The Mid-Day meal scheme was a boon to a lot of families.

5. This program also ensured that children were getting three square meals a day. Hence, they all attended school. With education came English mastery and the confidence to take on the world. The goodwill eventually translated to loyal fan following for the Communists.

6. (Bear in mind this Mid-Day meal scheme was actually started by the Travancore Royal Family, but trust the LEFT Ecosystem to discredit them)

7. Now fast forward to 90s the politics entered the colleges of Kerala. Constant bloodbath between the youth wing factions of Congress and Commies ensued. (Note there is no BJP in Kerala at all).

8. By Mid-90s most of the students who were associated with political parties are now either with their respective political parties or in some private or govt jobs. Some of these jobs also include news channels.

9. All regional news channels in Kerala veer towards their respective ideology of Commies or Congress. Post 2010s some prominent ones began displaying their affinity towards Commies. Eg. Kairali, MediaOne(IUML) and Asianet.

10. One must have often seen their news journalists mouth expletives against “Sanghis” and it is interesting to note that Asianet and MediaOne peddled fake news on Delhi riots blaming it on BJP.

11. But when the truth of Delhi Riots surfaced that it was all planned by AAP’s Tahir Hussain, they quietly removed the news without even an apology. (I feel sorry for the Union “Apology” Minister here).

12. https://t.co/IqFTBal48X (Translated from Malayalam to English) They lie in Malayalam just like Punjabi news channels lie in Punjabi about the Farmers Bill. pls use google translator

13. Now case in point – ppl who watch regional news channels do not watch other regional news nor they watch English news. So if their news channels spread lies against any govt. It will be believed as truth a la Goebbelsian.

14. Unknown to the public, from 1990s to 2000s there is a slow and under the radar growth of Islamism that is happening in Kerala. In 1998 Madhani was arrested for the Coimbatore blasts.

15. Btw he blew up his own legs while making a bomb. Still karma shouldn’t come in the way of jihad right? After all karma is a kafir concept.

16. https://t.co/dqCQVGzrz8 trust the CPI association to whitewash Madhani’s crimes. After a decade youth will revere him as a politician who was wrongly imprisoned by the centre and Karnataka Police.

17. In the 2000s banned SIMI is reborn as PFI in Kerala and with the blessings of Madhani above. And SDPI is their political outfit to gain legitimate vote share in polity.

18. Now the shocking aspect is whenever the Central govt or neighbouring state governments rake up the PFI issue in connection with Love Jihad and other related terror activities, the entire state supporting news machinery goes into overdrive and whitewashes PFI’s crimes...

19. ...including “Love Jihad”. PFI are the original propagators of Love Jihad, btw whom Twtr has verified recently. Rmmbr PFI's man Siddique Kappan who was arrested by UP police with false ids is still shown as a Kerala journalist.. #lovejihaad

20. How dare you "Sanghis" of UP Police prevent Hathras riots? https://t.co/Do1u3KykeN

21. When speaking of Love Jihad, the case of Hadiya aka Akhila Ashokan who fell in love with Shefin Jahan is to be considered https://t.co/1Z7LoO0Mwy specifically coz her father is ex-Army and a Communist party supporter. #LoveJihaad

22. (I don't know if he is still connected with the party) Now the communists of Kerala are atheistic Hindus + regular Christians + overzealous Muslims. Herein lies the problem. Women from atheistic Hindus and the ordinary Christians are the main targets. #LoveJihaad

23. The wooing muslim men are ably supported by women of their own community. This includes mental conditioning via praises of 'how good the muslim boy is etc', lacing the drinks of their non-muslim frns with sedatives, placing hidden camera to record intimate moments 4 blackmail

24. The state news media often whitewashes such cases in favour of the community that is keen to riot and break public property even for plucking goat hair. Several news channels blatantly outperform RNDTV in this regard. #Presstitutes

25. In all this what goes unnoticed and undetected is Love Jihad cases against Non-Muslim men. Eg the case of Javed Shaikh alias Pranesh Pillai, the only son of a widowed father. Remember Ishrat Jahan case, he was her accomplice.

26. There are Christian men who are victims too but they continue to remain pusillanimous. After all they didn't do anything to Bishop Franco for his crimes. But the church had the courage to ostracize Professor Joseph and his family for a few favours from the state.

27. What else will the church do here except take more favours from the state to keep quiet. Some poor christian can be allowed to be crucified for the cause I suppose. I wish that those men who have become victims come out and share their ordeal bravely.

28. If any of you think there is some easy solution to all this mess. No, there isn't. The LEFT ECOSYSTEM is such a well-connected hive that every party worker/supporter is well supported socio-economically (and after hit-jobs/kill-jobs) legally unlike those of the others.

29. It is due to the existence of this well entrenched 360 deg ecosystem that the flaws of the LEFT and Islamists will be brushed under the secular carpet. But those flaws that escape will continue being propagated as "BJP's attempt to break communal harmony of the state".

30. People of the neighboring states would do well to prevent their state from turning into another Kerala. (Let's not forget that journalist Dhanya Rajendran from Kerala was mentioned in the Greta Toolkit @StringReveals)

31. I opine – It takes a Village to raise a child, and neighbors to create a society, but only one neighboring family to break the village.

32. To elaborate further - if the regional news media channels are not reigned in via adequate and strong implementation of laws. They will continue to forsake sincere investigative journalism at the altar of their biased opinions to curry favors from

vested groups.
