In a dormitory with 100 inmates, upma was fed every day. Out of 100 pupils, 80 expressed dissatisfaction with the fact that they were given different tiffin every day. 1/n

However, 20 pupils were content to eat Upma on a daily basis. A total of 80 kids expressed a desire to eat something other than Upma. 2/n

The warden set up voting because he couldn't come to a decision because there was so much misunderstanding. Whichever tiffin receives the most votes will be created. 3/n

Upma received 20 votes in a short period of time from students who wanted her. The remaining 80 students voted according to their preferences. 4/n

As a result of the vote pattern and majority, Upma was kept.

Lesson: As long as 80% of the population is greedy, divided, and scattered, 20% of the population rules. 6/6
