Are you a Front-end developer?

These tools will save you 10+ hours per week ■

1■■ Unminify

Free tool to unminify JavaScript, CSS, HTML, XML, and JSON code, making it readable and pretty.

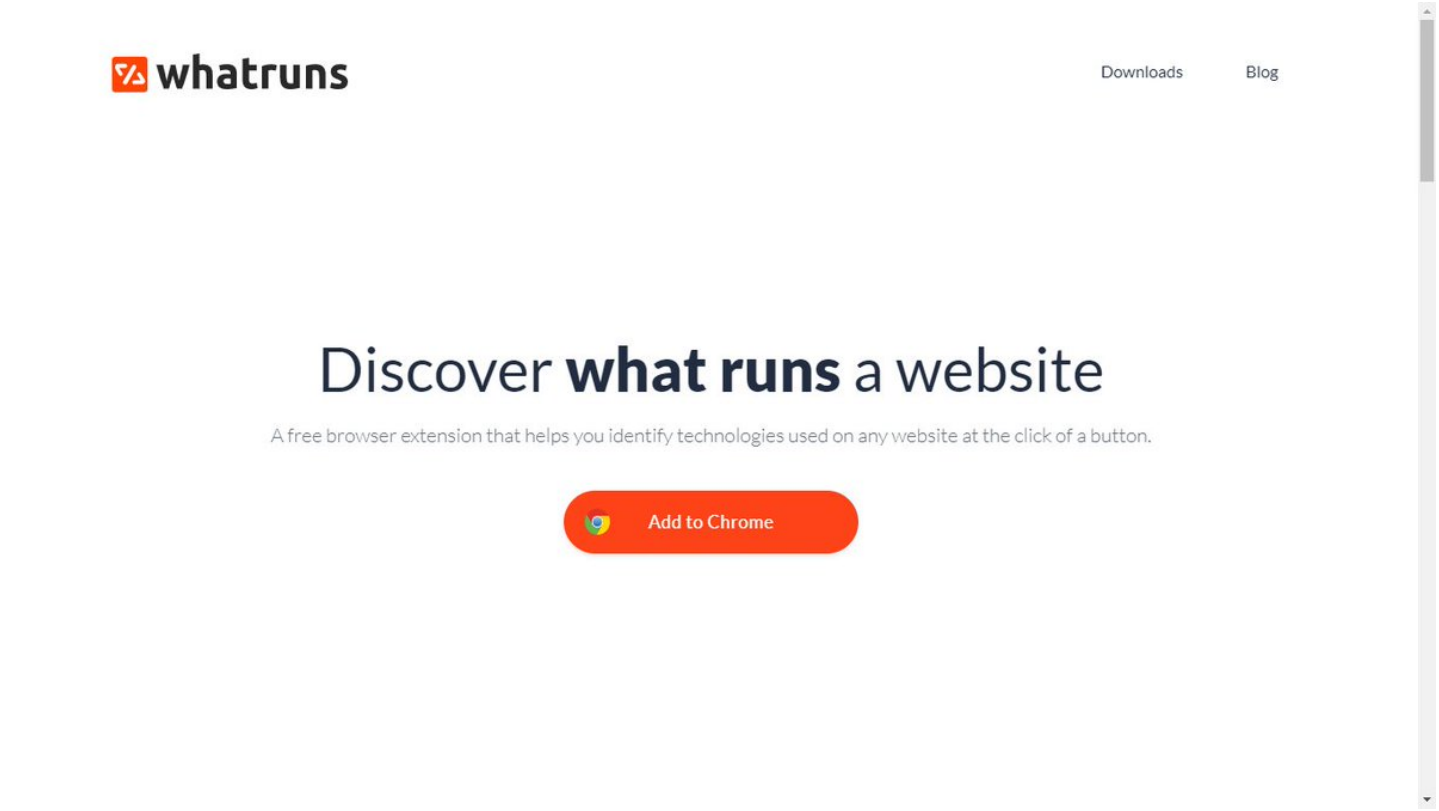

■https://t.co/NdSJdnttpb

2■■ WhatRuns

WhatRuns shows you pretty much everything that powers a website. Web apps they pay for, CDN they're hosted on, how they track their visitors, WordPress plugins, fonts – you name it!

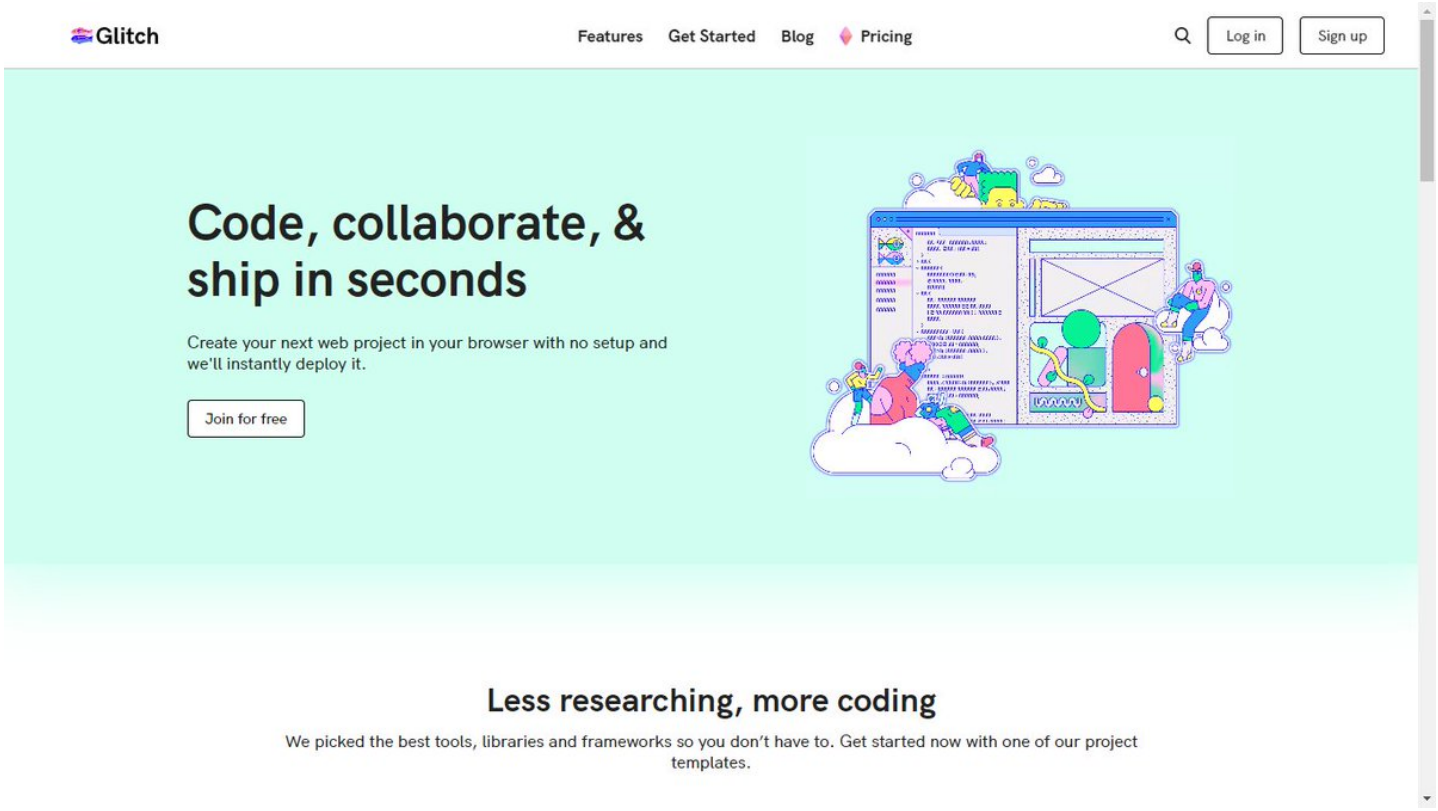

■https://t.co/c1xpEJawHA

3■■Glitch

Create your next web project in your browser with no setup and we'll instantly deploy it. Code, auto-deploy and collaborate in real-time with friends—all right in your browser.

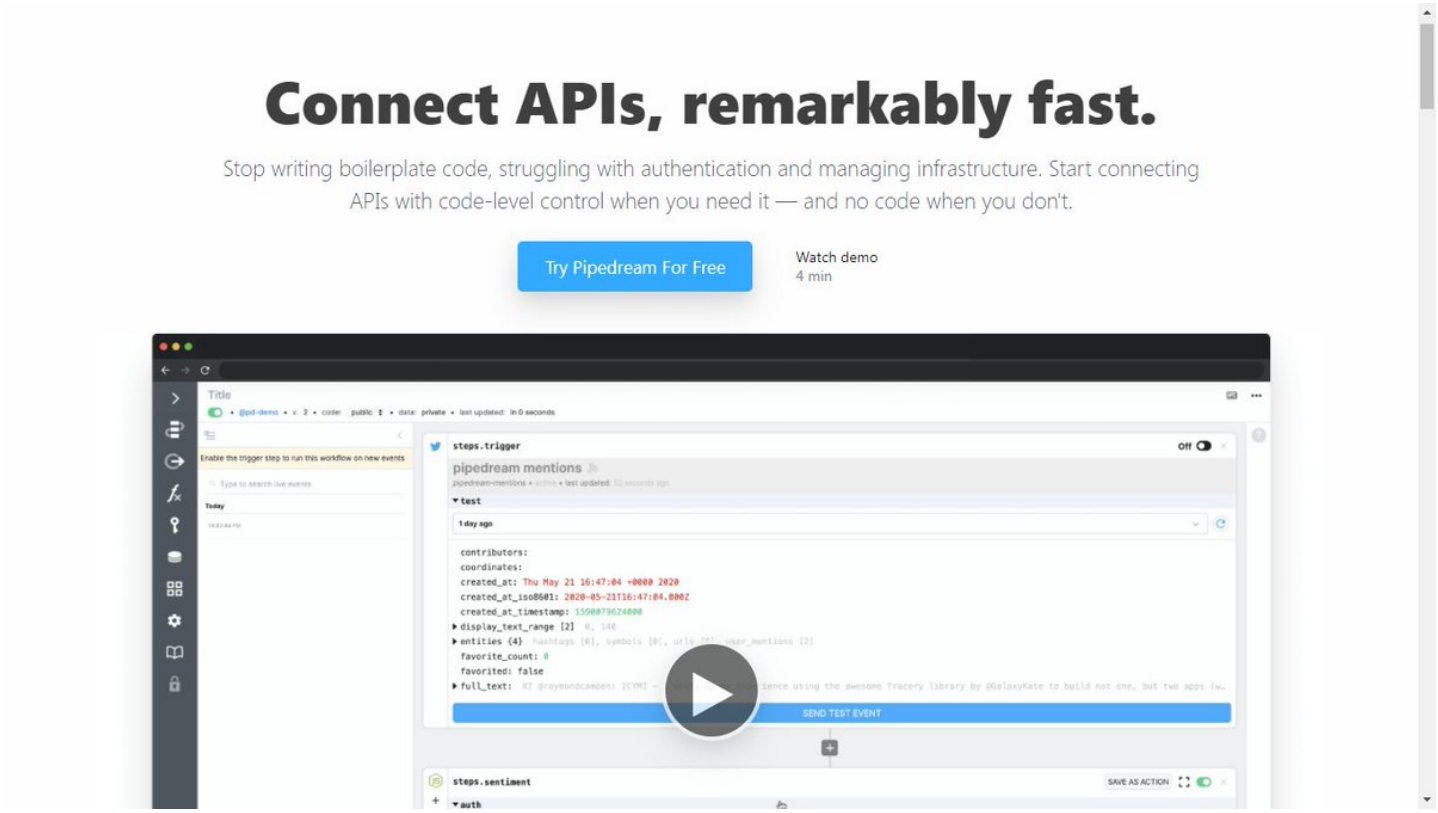

■https://t.co/LXb1GmgeFM

4■■ Pipedream

Pipedream is a low code integration platform for developers that allows you to connect APIs remarkably fast.

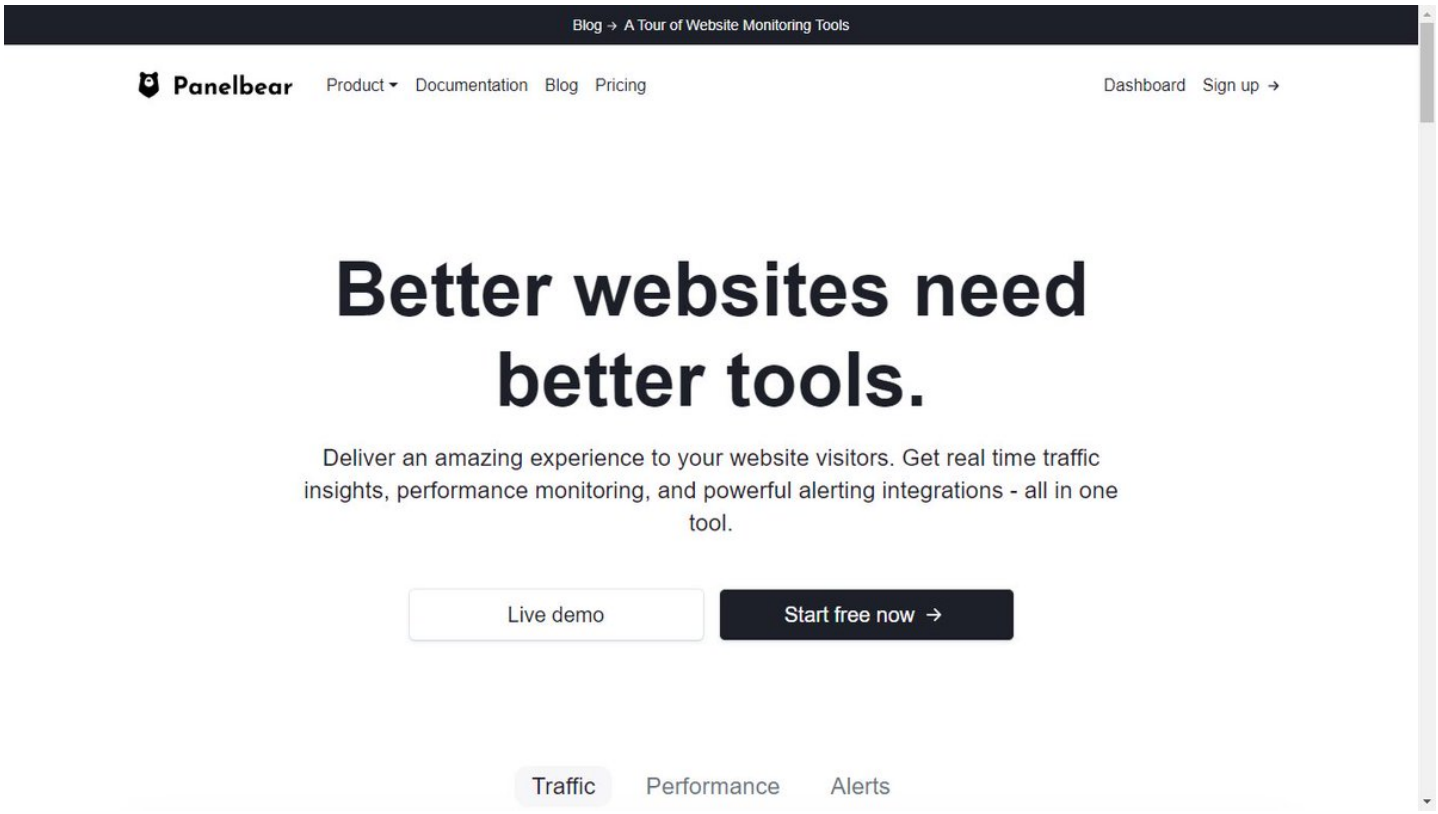

■https://t.co/DamFHMe8sy

5■■ Panelbaer

Deliver an amazing experience to your website visitors. Get real-time traffic insights, performance monitoring, and powerful alerting integrations - all in one tool.

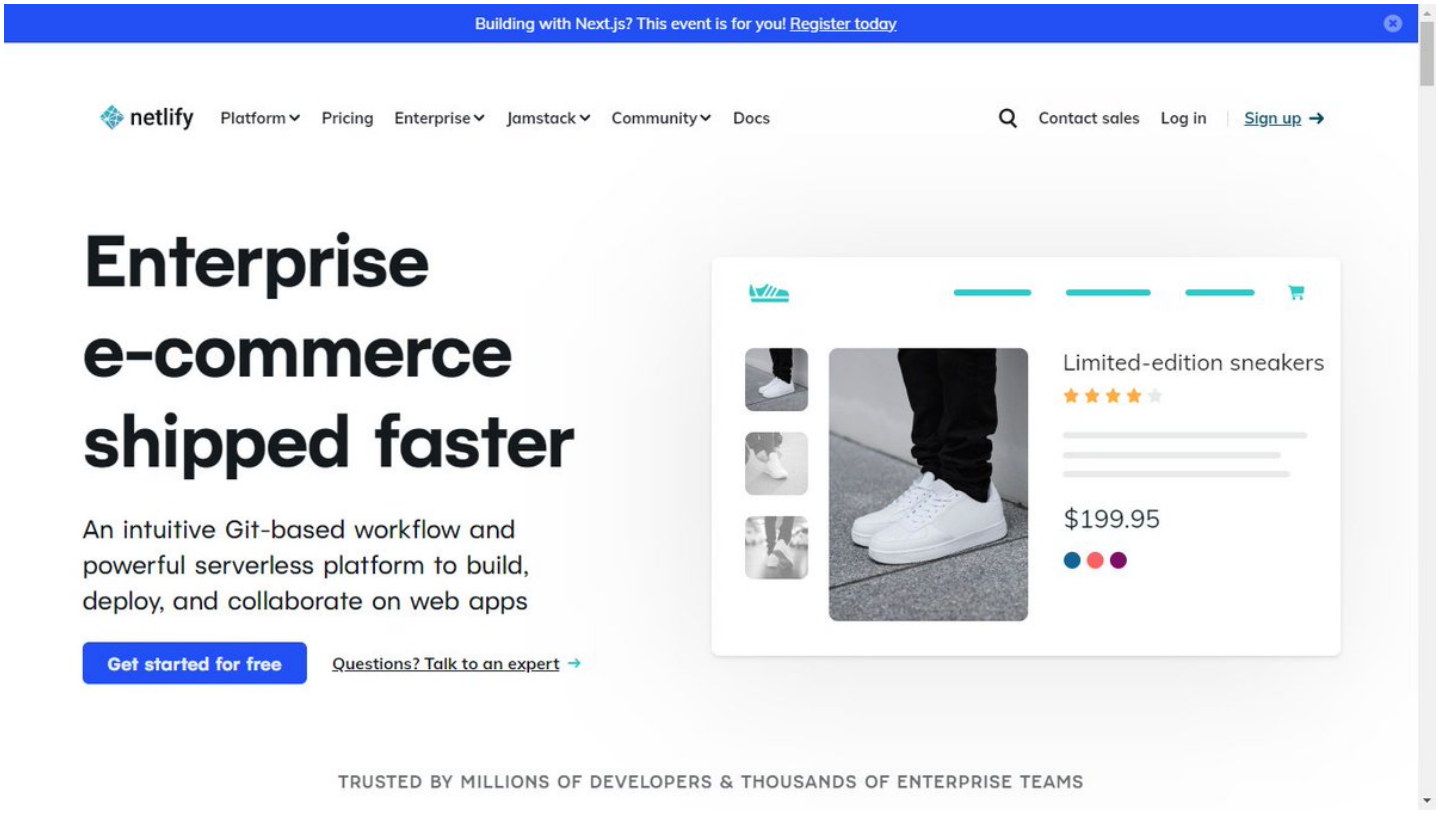

■https://t.co/OSxnRInnDG

6■■ Netlify

An intuitive Git-based workflow and powerful serverless platform to build, deploy, and collaborate on web apps.

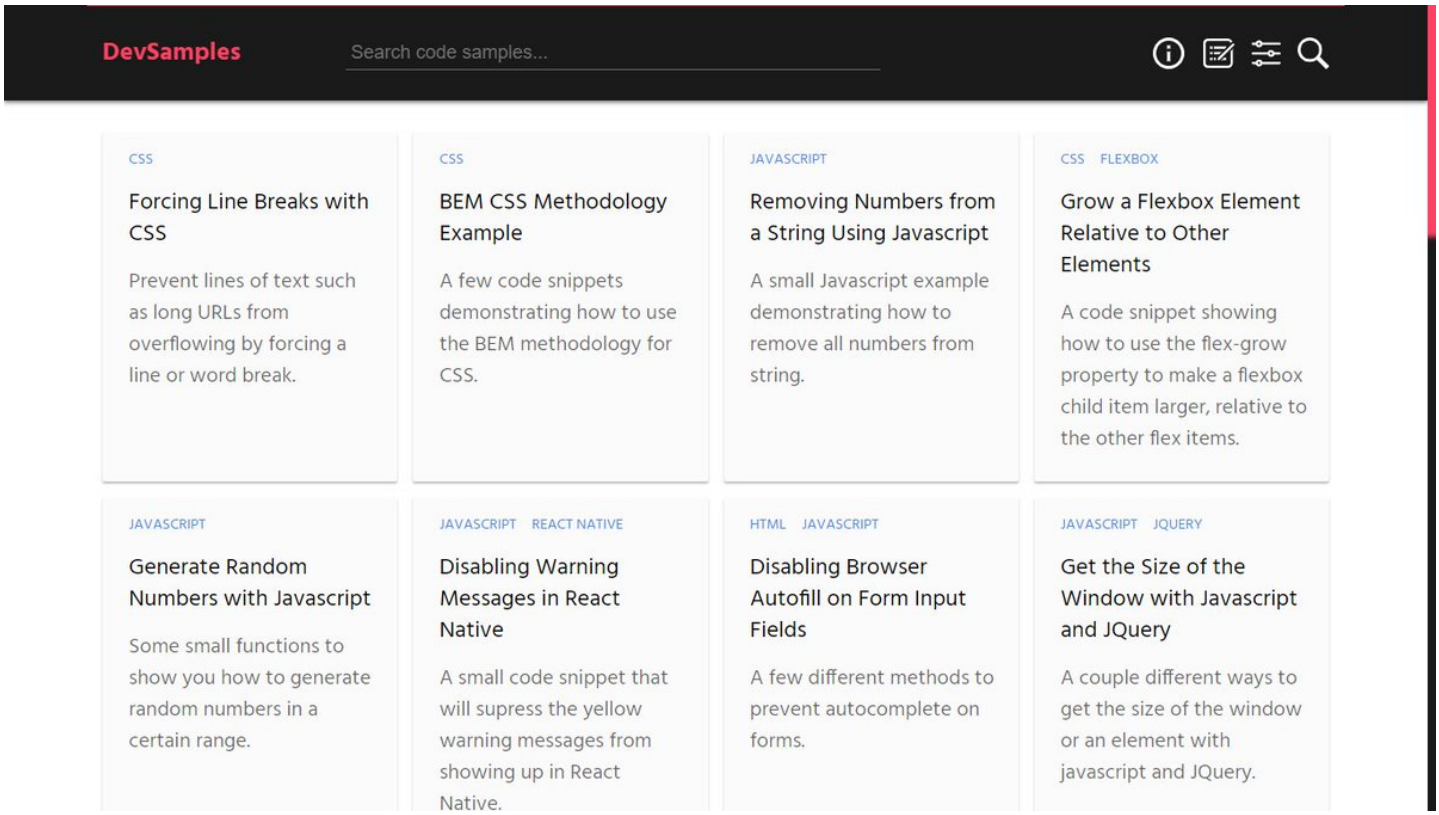

■https://t.co/pkjumtBmqD

7■■ DevSamples

DevSamples is a list of code samples for you to copy and paste into your projects as needed.

■https://t.co/dYE30K3OJT

8■■ Will it CORS?

Cross-Origin Resource Sharing (CORS) is how browsers decide how web applications can communicate with other services.

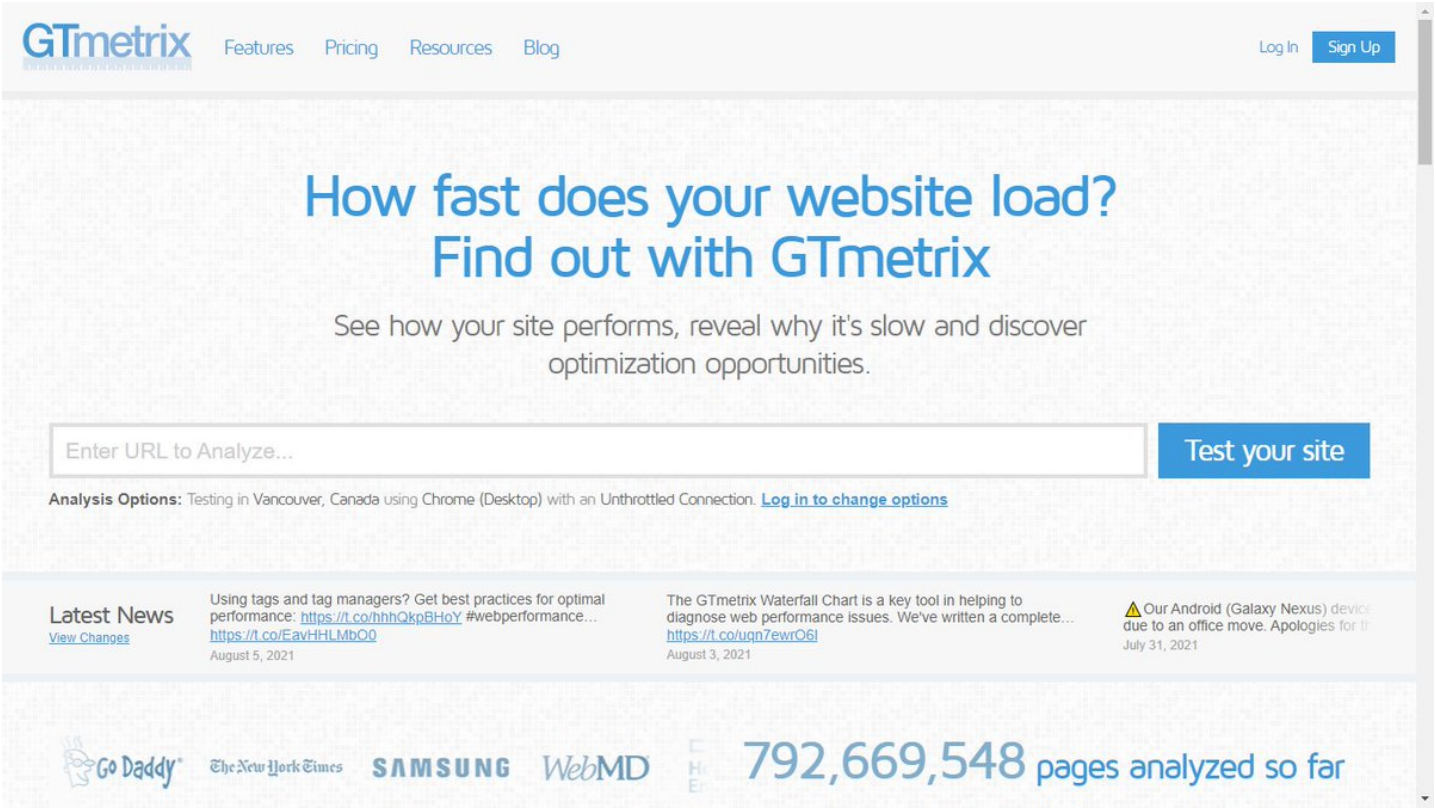

■https://t.co/plJ0KQNWl3

9■■GTmetrix

With GTmetrix you can see how your site performs, reveal why it's slow, and discover optimization opportunities.
