Future Breakout Trades By Mitesh Sir...@Mitesh_Engr
Thread By @AdityaTodmal and @niki_poojary

Thank u so much for ur learning Sir

12/8/21

Future Breakout Trades -

Nitesh Patel — By Aditya Todmal

- How to pick stocks at right time?
- What to look for?
- Importance of BO post consolidation?
- How to manage SL
- How to get huge profits.
- Multiple examples
- Pyramiding for making an impact on the PF.

* Imp of Trading only BO or BD stocks by -

- Two questions to always ask.
1) Why stock is going up/down & when?
2) Who is behind big up/down & when?

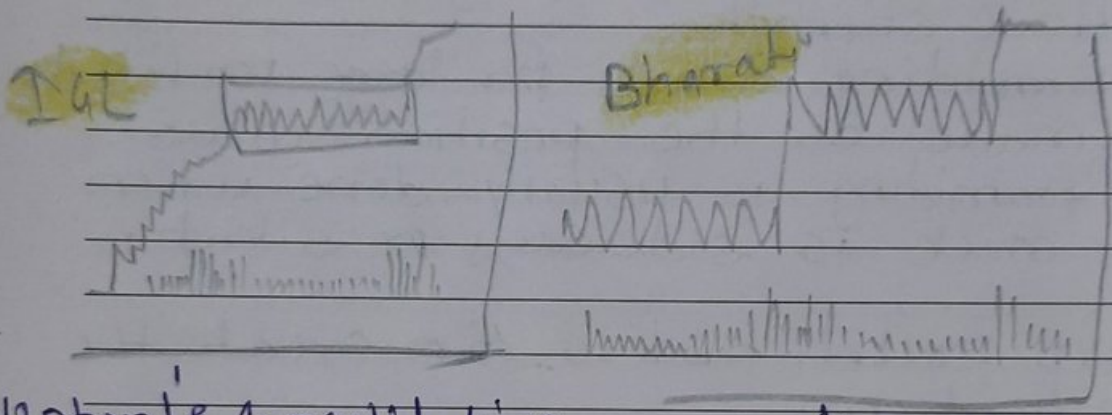

- Trade only stocks with momentum
- Instant results
- small SL or huge profits.

- Everyday all stocks will not up/down more than 4-5%.
- If all stock move in the same % range then the index will also move by same velocity & that's not possible,

Mext SAZO Oxcq Lefuma

Continued...

- IGL example is a text book example.
- Bharti example look for volumes in downmove.
- Less volume during downmove
- Gives conviction for further uptend.

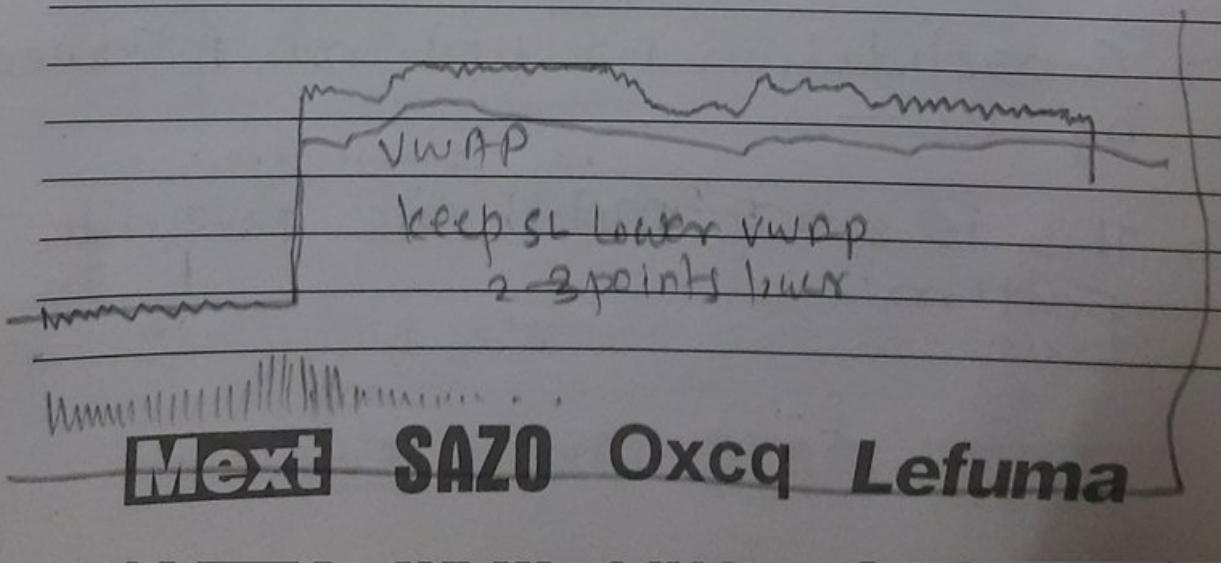

Uptend & Consolidation then Breakout

Consolidation in uptend.

* Tech Mahindra trade of explained—

- Tech M was consolidating near higher levels.
- Capped up with huge volumes.
- Operators in total control.

Thank u.

Happy learning to Everyone.

- If stock reverses sell calls.
- Ready to short futures too if reverses.
- follow the market.

Made around 3.7 lakh profit on a 26L account.

* According to Mitesh Sir what to focus on and what to Avoid?

- focus on stop losses & Trailing SL
- Profits will take care of themselves
- Mistake is predicting targets.
- View prevents you to change position.
- He never ever knows tgt.
- Only SL & TSL.

* Warning: Futures Trading is highly risky.

- venture into it only after you have made decent percentage gain on ur capital.
- try to avoid before that
- Money leaves ur account faster than it comes when u dont know what you are doing in futures.
