World asks, why is BHARAT so unique & Indians so successful globally?

- **Mutual respect:** most religions born & flourished here
- **Diversity including of 'thought':** belief that multiple paths leads to same goal
- **Humanity:** Pray for all living beings, not just believers
- **Gender equality:** No masculinity or femininity in divinity, gender neutral 'Tat'
- **Nature:** Divinity in plants, trees, rivers, mountains, sun, planets & nature
- **Animal Rights:** Divinity in animals
- **Tolerance:** No discrimination believers, non-believers, atheist & other faiths
- **Religion:** Dharma one word for duty & religion, not as how West defines
- **FoE:** actively encouraged & no blasphemy concept
- **Merger of Science & Religion:** Gyan & Vigyan two paths to attain BrahmGyan
- **Hard power:** Shakti - Shastra/Astra to look outwards & defend
- **Soft power:** Bhakti - Shastra to look inwards & grow
