Remember the app "Sulli Deals"? in which muslim women pics were misused?

Let's see who created the app —

See both accounts carefully –

1. Zubair (@AnonMark3) who posts derogatory stuff about H women, morphs their pics and makes cheap comments on 'em

2. Rajeev (@AnonHindu4) who similarly fetishizes about M women, making comments that would hurt sentiment of any Muslim

Now what if I told you both these accs are operated by the one and the same person – and what if I told you that this person is a MUSLIM??

His name is JAVED, here he's having some chat with a M woman – who gave all this info to us.. [contd.]

The screen recording of the entire conversation on twitter...

Next conversation they move on to tg, where shockingly & perhaps to impress the girl Javed admits to creating the infamous #SulliDealsApp

Reason? To create a "scenario" where some M women pics're misused which'll "teach 'em a lession"

He said he didn't regret even the slightest

Here's the screen recording

Later he adds the girl to his contact list & we're able to track him down to his home address..

He is Javed Alam, 23, B. Tech CSE from GLA University Mathura, living in Padrauna, UP and currently working with

@AccentureIndia

I've his three mobile nos in case anyone doing an FIR

It is worth noting that many in IMT (aka Indian Musanghi Twitter) were similarly defending #SulliDeals arguing that it was all the fault of M women who uploaded their pics on social media..

Some even went so far to abuse 'em and call 'em prostitutes for just uploading their pics

Now plz note that my purpose is not to spread hatred against any community, infact I myself am a proud secular..

I am only against those musanghis who harrassed muslim women for posting their pics and against Javed Alam who created the #SulliDeals app.
