@prats_cool

searching tweets of any handle between a date range
Taking example of @nakulvibhor I want to search sir's tweet from 1st July 2021 to 30th August 2021

(from:nakulvibhor) until:2021-08-31 since:2021-07-01

Just copy paste the above line in search box.
#handySearchTip

https://t.co/fQGH99wwDB

Other option is just copy paste the url and frame the conditions in boxes whichever required.

This is not available on app. So for app search box needs to be filled with specific search conditions as pasted in main tweet
