MITCH PICKS STOCK GUIDE: 1) Beginning Out/ Learning Technical Analysis (TA)/ Patterns: Most important is to know how to read a chart and know what cycle the stock is in. 4 Stock Cycles: https://t.co/oOhCSt49Xw. From here, start understanding patterns.

2) Research Tools I use: Finviz, for finding sympathy plays of runners and/or sectors running. https://t.co/krH8APu6Mr also good for making scanners. Here are a few scanners I use from Finviz (Reminder: Keep everything in trading simple, even your scanners):

3) Finviz Scanners: A) Unusual Volume: https://t.co/FsDM1voDeo B) Low RSI: https://t.co/ufI6hfP7I5 C) 52 WK Lows: https://t.co/qbHG3nL9Fr D) Above 50sma: https://t.co/rAjeMoxLTR E) Crosses 20sma: https://t.co/WkQixz6G5V

4) Research Tools: A) Biotech Catalyst: https://t.co/0Pm7GQWqfg B) Earnings Calendar: https://t.co/qQp5SNnife C) Best Charting Software @TrendSpider : https://t.co/qUkRBNhbSj D) Sec Filings: https://t.co/h2CZ03hxB6 E) Insider Buy/Sell: https://t.co/lBU0UYcmRN F) Company Website.

5) Brokers: Best starter broker: A) Webull (Get 4 free stocks for joining): https://t.co/xka1Qd3dXO B) TD Ameritrade/Thinkorswim - Great for charting as well like Trendspider. Etrade another great broker. Note: I use all 3 of these brokers.

6) Crypto/ Blockchain: Note: I don't use Robinhood or Webull for trading Cryptocurrency, I recommend Binance US and Coinbase. Coinbase: https://t.co/p6SwlPwgDB Binance US: https://t.co/ML6a88nlZW
