## useWeb3

useWeb3 provides a curated overview of the best and latest resources on Ethereum, blockchain and Web3 development. These resources help you develop your own smart contracts, DeFi project, ERC20 or NFT tokens in Solidity or Vyper. Connect with them using Web3 client libraries. Or publish them to the network or decentralized web, such as IPFS.

## A simple language for developing full-stack web apps with less code.

Describe high-level features with Wasp DSL and write the rest of your logic in React, Node.js and Prisma.

```
todoApp.wasp
app todoApp {
  title: "ToDo App" /* visible in tab */
}

route "/" -> page Main
page Main {
  /* import your React code */
  component: import Main from "@ext/Main.js"
}

auth { /* full-stack auth out-of-the-box */
  userEntity: User,
  methods: [ EmailAndPassword ],
}
```

\$ curl -sSL https://get.wasp-lang.dev/installer.sh | sh
